## **RESULTS OF OPERATIONS**

### **Investment income**

Total investment income for the three months ended June 30, 2017 and 2016 was \$20.3 million and \$20.5 million, respectively, and consisted of \$14.5 million and \$15.0 million of interest income on debt securities (which included PIK interest of \$0.4 million and \$0.5 million and prepayment premiums of \$0 and \$0.3 million, respectively), \$3.3 million and \$2.6 million of dividend income, \$1.1 million and \$1.7 million of interest income on other income-producing securities, and \$1.4 million and \$1.2 million of other income, including fees from THL Credit's managed vehicles, respectively.

The decrease in investment income compared to the prior period was primarily due to the contraction in overall investment portfolio since June 30, 2016, which led to lower interest income. This decrease was offset primarily by an increase in dividend income related to the Logan JV and an increase in other income and fees.

### **Expenses**

Expenses for the three months ended June 30, 2017 and 2016 were \$10.1 million and \$8.8 million, respectively. For the three months ended June 30, 2017 and 2016, base management fees were \$2.7 million and \$2.8 million, incentive fees were \$1.2 million and \$0, administrator and other expenses were \$1.8 million and \$2.0 million and fees and expenses related to THL Credit's borrowings were \$4.3 million and \$3.9 million, respectively. In addition, for the three months ended June 30, 2017 and 2016, THL Credit recorded an income tax provision related to its consolidated blocker corporations, excise and other taxes of \$0.1 million and \$0.1 million, respectively.

The increase in operating expenses between the three month periods was due primarily to higher costs related to borrowings and higher incentive fees. This increase was offset by lower base management fees as a result of portfolio contraction and lower administrator expenses.

### **Net investment income**

Net investment income totaled \$10.2 million and \$11.7 million for the three months ended June 30, 2017 and 2016, or \$0.31 and \$0.35 per share based upon 32,873,016 and 33,233,915 weighted average common shares outstanding, respectively.

The decrease in net investment income between the three month periods is primarily attributable to a decrease in interest on debt and other income-producing investments, higher interest and fees on borrowings and higher accrued incentive fees. This was offset by higher dividend income related to the Logan JV and other income.

### **Net realized gains and losses on investments**

For the three months ended June 30, 2017, THL Credit recognized realized losses of \$11.4 million from the sales of its second lien term loans in Washington Inventory Service and Hostway Corporation, which were partially offset by a change in unrealized depreciation. THL Credit also recognized a \$1.3 million gain from the realization of its equity interests in YP Equity Investors, LLC. For the three months ended June 30, 2016, THL Credit recognized a net realized gain on portfolio investments of \$3.7 million, primarily related to the sale of its equity investment in Surgery Center Holdings, Inc.

---

**Net change in unrealized appreciation (depreciation) on investments**

For the three months ended June 30, 2017 and 2016, THL Credit's investment portfolio had a net change in unrealized (depreciation) appreciation of \$0.8 million and \$(15.9) million, respectively.

The net change in unrealized appreciation (depreciation) on our investments for the three months ended June 30, 2017 as compared to the three months ended June 30, 2016 was driven primarily by the reversal of prior period net unrealized depreciation on the realization of certain investments and the financial performance of certain portfolio companies.

**Benefit (provision) for taxes on unrealized gain on investments**

For the three months ended June 30, 2017 and 2016, THL Credit recognized an income tax benefit (provision) for taxes on unrealized gains of \$1.7 million and \$(0.1) million related to consolidated subsidiaries, respectively.

The change in provision for taxes on unrealized gains on investments relates primarily to changes in the unrealized appreciation (depreciation) of the investments held in taxable consolidated subsidiaries, other temporary differences and a change in the prior year estimates received from certain portfolio companies.

**Realized and unrealized appreciation (depreciation) on interest rate derivative**

For the three months ended June 30, 2017 and 2016, THL Credit's interest rate derivative agreement had a net change in unrealized appreciation (depreciation) of \$0.01 million and \$0.01 million, respectively.

For the three months ended June 30, 2017 and 2016, THL Credit recognized a realized loss related to amounts paid on the interest rate derivative of \$0.01 million and \$0.07 million, respectively.

The changes between the three month periods were due to capital market changes impacting swap rates. THL Credit's five-year interest rate swap agreement expired on May 10, 2017.

**Change in net assets resulting from operations**

Change in net assets resulting from operations totaled \$1.3 million and \$(0.7) million, or \$0.04 and \$(0.02) per share based upon 32,873,016 and 33,233,915 weighted average common shares outstanding, for the three months ended June 30, 2017 and 2016, respectively.

The increase in net assets resulting from operations between the three month periods is due primarily to net realized and unrealized losses in the portfolio.

**FINANCIAL CONDITION, INCLUDING LIQUIDITY AND CAPITAL RESOURCES**

As of June 30, 2017, THL Credit had cash of \$3.9 million. THL Credit's liquidity and capital resources are derived from its credit facilities, equity and debt raises and cash flows from operations, including investment sales and repayments, and income earned. THL Credit's primary use of funds includes

---

THL Credit used, and expects to continue to use, these capital resources, together with proceeds from the turnover within the portfolio and from future public and private offerings of securities to finance its investment objectives.

As of June 30, 2017, borrowings outstanding had a weighted average interest rate of 4.77 percent. For the six months ended June 30, 2017, THL Credit borrowed \$57.9 million and repaid \$40.5 million under the credit facilities.

Its financing activities provided \$17.4 million of net borrowings on its credit facility and used \$17.8 million for distributions to stockholders, \$1.5 million to repurchase common stock and \$0.1 million for the payment of financing and offering costs.

For the six months ended June 30, 2016, THL Credit operating activities provided cash of \$59.6 million primarily in connection with the purchase and sales of investments. Its financing activities used \$35.3 million to repay borrowings on its credit facility, \$22.6 million for distributions to stockholders, \$1.5 million to repurchase common stock and \$0.1 million for the payment of financing and offering costs.
