CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This report, and other statements that we may make, may contain forward-looking statements with respect to future financial or business performance, strategies or expectations, anticipated share repurchases or lack thereof, our plans and expectations about future investments and the future liquidity of the company. Forward-looking statements are typically identified by words or phrases such as “trend,” “opportunity,” “pipeline,” “believe,” “comfortable,” “expect,” “anticipate,” “current,” “intention,” “estimate,” “position,” “assume,” “potential,” “outlook,” “continue,” “remain,” “maintain,” “sustain,” “seek,” “achieve” and similar expressions, or future or conditional verbs such as “will,” “would,” “should,” “could,” “may” or similar expressions.

Forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements speak only as of the date they are made, and we assume no duty to and do not undertake to update forward-looking statements. Actual results could differ materially from those anticipated in forward-looking statements and future results could differ materially from historical performance.

In addition to factors previously identified elsewhere in this filing, the following factors, among others, could cause actual results to differ materially from forward-looking statements or historical performance:

- the introduction, withdrawal, success and timing of business initiatives and strategies;
- changes in political, economic or industry conditions, the interest rate environment or financial and capital markets, which could result in changes in the value of our assets;
- the relative and absolute investment performance and operations of our investment adviser;
- the impact of increased competition;
- the impact of future acquisitions and divestitures;
- the unfavorable resolution of legal proceedings;
- our business prospects and the prospects of our portfolio companies;
- the impact, extent and timing of technological changes and the adequacy of intellectual property protection;
- the impact of legislative and regulatory actions and reforms and regulatory, supervisory or enforcement actions of government agencies relating to us or First Eagle Alternative Credit LLC, the Advisor;
- the ability of the Advisor to identify suitable investments for us and to monitor and administer our investments;
- our contractual arrangements and relationships with third parties;
- any future financings by us;
- the ability of the Advisor to attract and retain highly talented professionals;
- fluctuations in foreign currency exchange rates;
- the impact of changes to tax legislation and, generally, our tax position;
- the impact of pandemics or other serious public health epidemics, such as the current novel coronavirus ("COVID-19") pandemic on our operations, our portfolio companies' business, or the global economy;
- our ability to exit a control investment in a timely manner; and
- the ability to fund Logan JV's unfunded commitments to the extent approved by each member of the Logan JV investment committee.

- (1) All debt investments are income-producing, unless otherwise noted. Equity and member interests are non-income-producing unless otherwise noted. The Company generally acquires its investments in private transactions exempt from registration under the Securities Act of 1933, as amended, or the Securities Act. Its investments are therefore generally subject to certain limitations on resale, and may be deemed to be “restricted securities” under the Securities Act.
- (2) All investments are pledged as collateral under the Revolving Facility.
- (3) As of March 31, 2020, 27.4% and 23.3% of the Company’s total investments on a cost and fair value basis, respectively, are in non-qualifying assets. The Company may not acquire any non-qualifying assets unless, at the time of the acquisition, qualifying assets represent at least 70% of the Company’s total assets.

- (4) Variable interest rate investments bear interest in reference to London Interbank offer rate, or LIBOR, or Alternate Base Rate, or ABR, which are effective as of December 31, 2019. LIBOR loans are typically indexed to 30-day, 90-day or 180-day LIBOR rates, at the borrower's option, and ABR rates are typically indexed to the current prime rate or federal funds rate. Each of LIBOR and ABR rates may be subject to interest floors. As of March 31, 2020, the 30-day, 90-day and 180-day LIBOR rates were 0.99%, 1.45% and 1.18%, respectively.
- (5) Principal includes accumulated PIK interest and is net of repayments.
- (6) Unless otherwise indicated, all investments are valued using significant unobservable inputs. Refer to Level 3 fair value measurements quantitative information table in Note 3 of the Consolidated Financial Statements for further detail.
- (7) Foreign company or foreign co-borrower at the time of investment and, as a result, is not a qualifying asset under Section 55(a) of the 1940 Act.
- (8) Company pays 0.50% unfunded commitment fee on delayed draw term loan and/or revolving loan facilities.
- (9) The negative cost is the result of the capitalized discount being greater than the principal amount outstanding on the loan.
- (10) Member interests of limited liability companies are the equity equivalents of the stock of corporations.
- (11) At the option of the issuer, interest can be paid in cash or cash and PIK. The percentage of PIK shown is the maximum PIK that can be elected by the company.
- (12) Equity ownership may be held in shares or units of companies related to the portfolio company.
- (13) Interest held by a wholly owned subsidiary of THL Credit, Inc.
- (14) Not a qualifying asset under Section 55(a) of the 1940 Act.
- (15) As defined in Section 2(a)(9) of the 1940 Act, the Company is deemed to control this portfolio company because it owns more than 25% of the portfolio company's outstanding voting securities. See Schedule 12-14 in the accompanying notes to the consolidated financial statements for transactions for the year ended December 31, 2019 in which the issuer was a portfolio company that the Company is deemed to control.
- (16) On December 3, 2014, the Company entered into an agreement with Perspecta (as described in Note 3 hereto) to create THL Credit Logan JV LLC, or Logan JV, a joint venture, which invests primarily in senior secured first lien term loans. All Logan JV investment decisions must be unanimously approved by the Logan JV investment committee consisting of one representative from each of the Company and Perspecta. Although the Company owns more than 25% of the voting securities of Logan JV, the Company does not believe that it has control over Logan JV (other than for purposes of the 1940 Act or otherwise).
- (17) Preferred stock.
- (18) Common stock and member interest.
- (19) Loan was on non-accrual as of March 31, 2020.
- (20) Includes \$577 of cost and \$0 of fair value related to a non-controlling interest as a result of consolidating a blocker corporation that holds equity in OEM Group, LLC as of March 31, 2020.
- (21) Investment is measured at fair value using net asset value.
- (22) Company pays 0.38% unfunded commitment fee on revolving loan facility.
- (23) Investment previously known as Rollins Enterprises LLC.
- (24) Company pays 1.00% unfunded commitment fee on delayed draw term loan facility.
- (25) Company pays 0.25% unfunded commitment fee on revolving loan facility.

- (1) All debt investments are income-producing, unless otherwise noted. Equity and member interests are non-income-producing unless otherwise noted. The Company generally acquires its investments in private transactions exempt from registration under the Securities Act of 1933, as amended, or the Securities Act. Its investments are therefore generally subject to certain limitations on resale, and may be deemed to be “restricted securities” under the Securities Act.
- (2) All investments are pledged as collateral under the Revolving Facility.
- (3) As of December 31, 2019, 28.4% and 29.2% of the Company’s total investments on a cost and fair value basis, respectively, are in non-qualifying assets. The Company may not acquire any non-qualifying assets unless, at the time of the acquisition, qualifying assets represent at least 70% of the Company’s total assets.

See accompanying notes to these consolidated financial statements.

- (4) Variable interest rate investments bear interest in reference to London Interbank offer rate, or LIBOR, or Alternate Base Rate, or ABR, which are effective as of December 31, 2019. LIBOR loans are typically indexed to 30-day, 90-day or 180-day LIBOR rates, at the borrower's option, and ABR rates are typically indexed to the current prime rate or federal funds rate. Each of LIBOR and ABR rates may be subject to interest floors. As of December 31, 2019, the 30-day, 90-day and 180-day LIBOR rates were 1.76%, 1.91% and 1.91%, respectively.
- (5) Principal includes accumulated PIK interest and is net of repayments.
- (6) Unless otherwise indicated, all investments are valued using significant unobservable inputs. Refer to Level 3 fair value measurements quantitative information table in Note 3 of the Consolidated Financial Statements for further detail.
- (7) Foreign company or foreign co-borrower at the time of investment and, as a result, is not a qualifying asset under Section 55(a) of the 1940 Act.
- (8) Company pays 0.50% unfunded commitment fee on delayed draw term loan and/or revolving loan facilities.
- (9) The negative cost is the result of the capitalized discount being greater than the principal amount outstanding on the loan.
- (10) Member interests of limited liability companies are the equity equivalents of the stock of corporations.
- (11) At the option of the issuer, interest can be paid in cash or cash and PIK. The percentage of PIK shown is the maximum PIK that can be elected by the company.
- (12) Equity ownership may be held in shares or units of companies related to the portfolio company.
- (13) Interest held by a wholly owned subsidiary of THL Credit, Inc.
- (14) Not a qualifying asset under Section 55(a) of the 1940 Act.
- (15) As defined in Section 2(a)(9) of the 1940 Act, the Company is deemed to control this portfolio company because it owns more than 25% of the portfolio company's outstanding voting securities. See Schedule 12-14 in the accompanying notes to the consolidated financial statements for transactions for the year ended December 31, 2019 in which the issuer was a portfolio company that the Company is deemed to control.
- (16) On December 3, 2014, the Company entered into an agreement with Perspecta (as described in Note 3 hereto) to create THL Credit Logan JV LLC, or Logan JV, a joint venture, which invests primarily in senior secured first lien term loans. All Logan JV investment decisions must be unanimously approved by the Logan JV investment committee consisting of one representative from each of the Company and Perspecta. Although the Company owns more than 25% of the voting securities of Logan JV, the Company does not believe that it has control over Logan JV (other than for purposes of the 1940 Act or otherwise).
- (17) Preferred stock.
- (18) Common stock and member interest.
- (19) Loan was on non-accrual as of December 31, 2019.
- (20) Includes \$577 of cost and \$0 of fair value related to a non-controlling interest as a result of consolidating a blocker corporation that holds equity in OEM Group, LLC as of December 31, 2019.
- (21) Investment is measured at fair value using net asset value.
- (22) Company pays 0.38% unfunded commitment fee on revolving loan facility.
- (23) Investment previously known as Rollins Enterprises LLC.
- (24) Company pays 1.00% unfunded commitment fee on delayed draw term loan facility.
- (25) Company pays 0.25% unfunded commitment fee on revolving loan facility.
- (26) Investments are valued using market quotations. Refer to Level 2 fair value measurements quantitative information table in Note 3 of the Consolidated Financial Statements for further detail.

(unaudited)

1. Organization

THL Credit, Inc., or the Company, was organized as a Delaware corporation on May 26, 2009. The Company has elected to be regulated as a business development company, or BDC, under the Investment Company Act of 1940, as amended, or 1940 Act. The Company has elected to be treated for tax purposes as a regulated investment company, or RIC, under the Internal Revenue Code of 1986, as amended, or the Code. The Company's investment objective is to generate both current income and capital appreciation, primarily through privately negotiated investments in debt and equity securities of middle market companies.

The Company has established from time to time wholly owned subsidiaries or other subsidiaries that are structured as Delaware entities, or as tax blockers, to hold equity or equity-like investments in portfolio companies organized as limited liability companies, or LLCs (or other forms of pass-through entities). Corporate subsidiaries are not consolidated for income tax purposes and may incur income tax expense as a result of their ownership of portfolio companies.

The Company has a wholly owned subsidiary, THL Corporate Finance, Inc., which serves as the administrative agent on certain investment transactions.

2. Significant Accounting Policies and Recent Accounting Updates

Basis of Presentation

The Company is an investment company following the accounting and reporting guidance under the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 946, *Financial Services—Investment Companies*.

The consolidated financial statements include the accounts of the Company and its subsidiaries. All inter-company accounts and transactions have been eliminated in consolidation. In accordance with Article 6 of Regulation S-X under the Securities Act of 1933, as amended, and the Securities and Exchange Act of 1934, as amended, the Company generally will not consolidate its interest in any company other than in investment company subsidiaries and controlled operating companies substantially all of whose business consists of providing services to the Company. The Company has made changes to the presentation of certain prior year information to conform with current year presentation.

The accompanying consolidated financial statements of the Company have been presented in accordance with accounting principles generally accepted in the United States of America ("GAAP") and pursuant to the requirements for reporting on Form 10-Q and Article 10 of Regulation S-X. Accordingly, certain disclosures accompanying annual financial statements prepared in accordance with GAAP are omitted. In the opinion of management, the unaudited financial results included herein contain all adjustments, consisting solely of normal accruals, considered necessary for the fair statement of financial statements for the interim period included herein. The current period's results of operations are not necessarily indicative of the operating results to be expected for the period ending December 31, 2020.

The information included in this Form 10-Q should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations and the audited consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2019 filed with the SEC on March 5, 2020. The financial results of the Company's portfolio companies are not consolidated in the financial statements.

The accounting records of the Company are maintained in U.S. dollars.

Consolidation

The Company follows the guidance in ASC Topic 946 *Financial Services—Investment Companies* and will not generally consolidate its investment in a company other than substantially owned investment company subsidiaries or a controlled operating company whose business consists of providing services to the Company. The Company consolidated the results of its substantially owned subsidiaries in its consolidated financial statements. In conjunction with the consolidation of subsidiaries, the Company recognizes the non-controlling interest in THL Credit OEMG Investor, Inc. in its consolidated financial statements. The Company does not consolidate its non-controlling interest in THL Credit Logan JV LLC, or Logan JV. See also the disclosure under the heading, THL Credit Logan JV LLC.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that may affect the reported amounts and disclosures in the financial statements. Changes in the economic environment, financial markets, creditworthiness of the Company's portfolio companies and any other parameters used in determining these estimates could cause actual results to differ and these differences could be material.

Cash

Cash consists of funds held in demand deposit accounts at two financial institutions and, at certain times, balances may exceed the Federal Deposit Insurance Corporation insured limit and is therefore subject to credit risk. There were no cash equivalents as of March 31, 2020 and December 31, 2019.

Deferred Financing Costs

Deferred financing costs consist of fees and expenses paid in connection with the closing of the Revolving Facility (as defined in Note 7 hereto) and public debt offering of Notes (as defined in Note 7 hereto) including legal, accounting, printing fees and other related expenses, as well as costs incurred in connection with the filing of a shelf registration statement. These costs are capitalized at the time of payment and are amortized using the straight line and effective yield methods over the term of the Revolving Facility and Notes, respectively.

Under the Notes Payable, if there is a substantial modification of the terms of the existing agreement (greater than 10% change in the present value of cash flows under the old and new amended facilities) then the change would result in a debt extinguishment and any unamortized deferred financing costs would be expensed during that period. Third party costs under the new arrangement would be capitalized and amortized over the term of the new arrangement. Under the Revolving Facility, if the borrowing capacity of the new arrangement is lower than the borrowing capacity of the old arrangement for each underlying lender in the lending syndicate, then any unamortized deferred financing costs would be expensed during the period in proportion to the decrease from the old arrangement for that lender. Any remaining unamortized deferred financing costs relating to the old arrangement would be deferred and amortized over the term of the new arrangement along with any costs associated with the new arrangement.

Capitalized deferred financing costs related to the Notes are presented net against the respective balances outstanding on the Consolidated Statements of Assets and Liabilities. Capitalized deferred financing costs related to the Revolving Facility are presented separately on the Company's Consolidated Statements of Assets and Liabilities. See also the disclosure in Note 7, Borrowings.

Fair Value of Financial Instruments

The carrying amounts of the Company's financial instruments, including cash, accounts payable and accrued expenses, approximate fair value due to their short-term nature. The carrying amounts and fair values of the Company's long-term obligations are disclosed in Note 7, Borrowings.

Valuation of Investments

The Company accounts for its Investment Portfolio at fair value. As a result, the Company follows the provisions of ASC 820, Fair Value Measurements and Disclosures ("ASC 820"). ASC 820 defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value and enhances disclosure requirements for fair value measurements. ASC 820 requires the Company to assume that the portfolio investment is to be sold in the principal market to independent market participants, which may be a hypothetical market. Market participants are defined as buyers and sellers in the principal market that are independent, knowledgeable and willing and able to transact.

Investments, for which market quotations are readily available, are valued using market quotations, which are generally obtained from an independent pricing service or broker-dealers or market makers. Debt and equity securities, for which market quotations are not readily available or are determined to be unreliable are valued at fair value as determined in good faith by the Company's board of directors. Because the Company expects that there will not be a readily available market value for many of the investments in the Company's portfolio, it is expected that many of the Company's portfolio investments' values will be determined in good faith by the Company's board of directors in accordance with a documented valuation policy that has been reviewed and approved by the Company's board of directors and in accordance with GAAP. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Company's investments may differ significantly from the values that would have been used had a readily available market value existed for such investments, and the differences could be material.

With respect to investments for which market quotations are not readily available or are determined to be unreliable, the Company undertakes a multi-step valuation process each quarter, as described below:

- the Company's quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for managing portfolio investments;
- preliminary valuation conclusions are then documented and are reviewed with the investment committee of First Eagle Alternative Credit, LLC, or the Advisor;
- to the extent determined by the audit committee of the Company's board of directors, independent valuation firms are used to conduct independent appraisals of all "Level 3" investments and review the Advisor's preliminary valuations in light of their own independent assessment unless the amounts are immaterial or have closed near quarter-end;
- the audit committee of the Company's board of directors reviews the preliminary valuations approved by the pricing committee of the Advisor and independent valuation firms and, if necessary, responds and supplements the valuation recommendation of the independent valuation firms to reflect any comments; and
- the Company's board of directors discusses valuations and determines the fair value of each investment in the Company's portfolio in good faith based on the input of the Advisor, the respective independent valuation firms and the audit committee.

The types of factors that the Company may take into account in fair value pricing its investments include, as relevant, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flows, the markets in which the portfolio company does business, comparison to publicly traded securities and other relevant factors. The Company generally utilizes an income approach to value its debt investments and a combination of income and market approaches to value its equity investments. With respect to unquoted securities, the Advisor and the Company's board of directors, in consultation with the Company's independent third party valuation firms, values each investment considering, among other measures, discounted cash flow models, comparisons of financial ratios of peer companies that are public and other factors. Each valuation is then approved by the board of directors.

Debt Investments

For debt investments, the Company generally determines the fair value primarily using an income, or yield, approach that analyzes the discounted cash flows of interest and principal for the debt security, as set forth in the associated loan agreements, as well as the financial position and credit risk of each portfolio investment. The Company's estimate of the expected repayment date is generally the legal maturity date of the instrument. The yield analysis considers changes in leverage levels, credit quality, portfolio company performance and other factors. The enterprise value, a market approach, is used to determine the value of equity and debt investments that are credit impaired, close to maturity or where the Company also holds a controlling equity interest. The method for determining enterprise value uses a multiple analysis, whereby appropriate multiples are applied to the portfolio company's revenues or net income before net interest expense, income tax expense, depreciation and amortization, or EBITDA.

Escrow and Other Receivables

Escrow receivables are categorized within Level 3 of the fair value hierarchy where the net realizable value of the escrow receivables approximates fair value. The fair value is determined using probability weighted scenario analysis.

Equity

The Company generally uses the market approach to value its equity investments. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). The measurement is based on the value indicated by current market expectations about those future amounts. In following these approaches, the types of factors that the Company may take into account in fair value pricing the Company's investments include, as relevant: available current market data, including relevant and applicable market trading and transaction comparables, applicable market yields and multiples, the current investment performance rating, security covenants, call protection provisions, information rights, the nature and realizable value of any collateral, the portfolio company's ability to make payments, its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons of financial ratios of peer companies that are public, transaction comparables, the Company's principal market as the reporting entity and enterprise values, among other factors.

Investment in Funds

In circumstances in which net asset value per share of an investment is determinative of fair value, the Company estimates the fair value of an investment in an investment company using the net asset value per share of the investment (or its equivalent) without further adjustment if the net asset value per share of the investment is determined in accordance with the specialized accounting guidance for investment companies as of the reporting entity's measurement date.

Foreign Currency

Foreign currency amounts are translated into U.S. dollars on the following basis:

- cash and cash equivalents, market value of investments, outstanding debt on revolving credit facilities, other assets and liabilities: at the spot exchange rate on the last business day of the period; and
- purchases and sales of investments, borrowings and repayments of such borrowings, income and expenses: at the rates of exchange prevailing on the respective dates of such transactions.

Although net assets and fair values are presented based on the applicable foreign exchange rates described above, the Company does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in fair values of investments held. Such fluctuations are included with the net realized and unrealized gain or loss from investments. Fluctuations arising from the translation of foreign currency borrowings are included with the net change in unrealized gains (losses) on translation of assets and liabilities in foreign currencies on the consolidated statements of operations.

Investments denominated in foreign currencies and foreign currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. dollar.

The Company's approach to hedging the foreign currency exposure in its non-U.S. dollar denominated investments is primarily to borrow the necessary local currency under the Company's Revolving Facility (as defined in Note 7) to fund these investments.

Security Transactions, Payment-in-Kind, Income Recognition, Realized/Unrealized Gains or Losses

Security transactions are recorded on a trade-date basis. The Company measures realized gains or losses by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment, using the specific identification method. Net realized gains and losses reflect the impact of investments written off during the period, if any. The Company reports changes in fair value of investments that are measured at fair value as a component of net change in unrealized appreciation or depreciation on investments in the Consolidated Statements of Operations.

Interest income, adjusted for amortization of premium and accretion of discount, is recorded on an accrual basis to the extent that the Company expects to collect such amounts. Original issue discount, representing the estimated fair value of detachable equity or warrants obtained in conjunction with the acquisition of debt securities and market discount or premium are capitalized and accreted or amortized into interest income over the life of the respective security using the effective yield method. The amortized cost of investments represents the original cost adjusted for the accretion/amortization of discounts and premiums and upfront loan origination fees.

Dividend income on preferred equity investments is recorded on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity investments is recorded on the record date for private portfolio companies and on the ex-dividend date for publicly traded portfolio companies. Distributions received from a limited liability company or limited partnership investment are evaluated to determine if the distribution should be recorded as dividend income or a return of capital.

Loans are placed on non-accrual status when principal or interest payments are past due 30 days or more and/or when it is no longer probable that principal or interest will be collected. However, the Company may make exceptions to this policy if the loan has sufficient collateral value and is in the process of collection. The Company records the reversal of any previously accrued income against the same income category reflected in the Consolidated Statement of Operations. As of March 31, 2020, the Company had loans on non-accrual status with an amortized cost basis of \$93,570 and fair value of \$45,675. As of March 31, 2019, the Company had loans on non-accrual status with an amortized cost basis of \$68,203 and fair value of \$29,143.

The Company has investments in its portfolio which contain a contractual paid-in-kind, or PIK, interest provision. PIK interest is computed at the contractual rate specified in each investment agreement, is added to the principal balance of the investment, and is recorded as income. The Company will cease accruing PIK interest if there is insufficient value to support the accrual or if the Company does not expect amounts to be collectible and will generally only begin to recognize PIK income again when all principal and interest have been paid or upon the restructuring of the investment where the interest is deemed collectible. To maintain the Company's status as a RIC, PIK interest income, which is considered investment company taxable income, must be paid out to stockholders in the form of dividends even though the Company has not yet collected the cash. Amounts necessary to pay these dividends may come from available cash.

The following shows a rollforward of PIK income activity for the three months ended March 31, 2020 and 2019:

	ended	Three months	
		31,	March
		2020	2019
Accumulated PIK balance, beginning of period	\$	3,587	\$ 3,879
PIK income capitalized/receivable		49	697
PIK reduction due to sale		—	(69)
PIK received in cash from repayments		(6)	—
Accumulated PIK balance, end of period	\$	3,630	\$ 4,507

The Company capitalizes and amortizes upfront loan origination fees received in connection with the closing of investments. The unearned income from such fees is accreted into interest income over the contractual life of the loan based on the effective interest method. Upon prepayment of a loan or debt security, any prepayment premiums, unamortized upfront loan origination fees, and unamortized discounts are recorded as interest income.

The Company will recognize any earned exit or back-end fees into income when it believes the amounts will ultimately become collected by using either the beneficial interest model or other appropriate income recognition frameworks.

In certain investment transactions, the Company may provide advisory services. For services that are separately identifiable and external evidence exists to substantiate fair value, income is recognized as earned. The Company had no income from advisory services related to portfolio companies for the three months ended March 31, 2020 and 2019.

The Company may also generate revenue in the form of fees from the management of Greenway and Greenway II, prepayment premiums, commitment, loan origination, structuring or due diligence fees, exit fees, portfolio company administration fees, fees for providing significant managerial assistance and consulting fees.

U.S. Federal Income Taxes, Including Excise Tax

The Company has elected to be taxed as a RIC under Subchapter M of the Code and currently qualifies, and intends to continue to qualify each year, as a RIC under the Code. Accordingly, the Company is not subject to federal income tax on the portion of its taxable income and gains distributed to stockholders.

In order to qualify for favorable tax treatment as a RIC, the Company is required to distribute annually to its stockholders at least 90% of its investment company taxable income, as defined by the Code. To avoid a 4% U.S. federal excise tax on undistributed earnings, the Company is required to distribute each calendar year the sum of (i) 98% of its ordinary income for such calendar year, (ii) 98.2% of its capital gain net income for the one-year period ending October 31 of that calendar year and (iii) any income recognized, but not distributed, in preceding years and on which the Company paid no U.S. federal income tax. The Company, at its discretion, may choose not to distribute all of its taxable income for the calendar year and pay a non-deductible 4% excise tax on this undistributed income. If the Company chooses to do so, all other things being equal, this would increase expenses and reduce the amount available to be distributed to stockholders. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions from such taxable income, the Company accrues excise taxes on estimated excess taxable income as taxable income is earned using an annual effective excise tax rate.

The annual effective excise tax rate is determined by dividing the estimated annual excise tax by the estimated annual taxable income. See also the disclosure in Note 10, Distributions, for a summary of recent dividends paid. For the three months ended March 31, 2020 and 2019, the Company incurred U.S. federal excise tax and other tax (benefits) expenses of \$52 and \$77, respectively.

Certain consolidated subsidiaries of the Company are subject to U.S. federal and state income taxes. These taxable entities are not consolidated for income tax purposes and may generate income tax liabilities or assets from permanent and temporary differences in the recognition of items for financial reporting and income tax purposes at the subsidiaries.

The following shows the breakdown of deferred income tax provisions for the three months ended March 31, 2020 and 2019. There were no current income tax provisions during the respective periods.

	For the three months ended March 31,	
	2020	2019
Benefit for taxes on unrealized gain on investments	\$ 470	\$ 107

These current and deferred income taxes are determined from taxable income estimates provided by portfolio companies organized as pass-through entities where the Company holds equity or equity-like investments in its corporate subsidiaries. These tax estimates may be subject to further change once tax information is finalized for the year. As of March 31, 2020 and December 31, 2019, \$5 and \$5, respectively, of income tax receivable was included in prepaid expenses and other assets on the Consolidated Statements of Assets and Liabilities. As of March 31, 2020 and December 31, 2019, \$1,505 and \$1,927, respectively, were included in deferred tax liability on the Consolidated Statements of Assets and Liabilities primarily relating to deferred taxes on unrealized gains on investments and other temporary book to tax differences held in its corporate subsidiaries. As of March 31, 2020 and December 31, 2019, \$2,315 (net of \$6,387 allowance) and \$2,267 (net of \$6,291 allowance), respectively of deferred tax assets were included in deferred tax assets on the Consolidated Statements of Assets and Liabilities relating to net operating loss carryforwards and unrealized losses on investments and other temporary book to tax differences that are expected to be used in future periods.

Under the RIC Modernization Act (the “RIC Act”), the Company is permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010, for an unlimited period. However, any losses incurred during post-enactment taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years, which carry an expiration date. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital loss carryforwards will retain their character as either short-term or long-term capital losses rather than being considered all short-term as permitted under the rules applicable to pre-enactment capital losses.

Because U.S. federal income tax regulations differ from GAAP, distributions in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes. Differences may be permanent or temporary. Permanent differences are reclassified among capital accounts in the consolidated financial statements to reflect their tax character. Temporary differences arise when certain items of income, expense, gain or loss are recognized at some time in the future. Differences in classification may also result from the treatment of short-term gains as ordinary income for tax purposes.

The Company follows the provisions under the authoritative guidance on accounting for and disclosure of uncertainty in tax positions. The provisions require management to determine whether a tax position of the Company is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. For tax positions not meeting the more likely than not threshold, the tax amount recognized in the consolidated financial statements is reduced by the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement with the relevant taxing authority. There are no unrecognized tax benefits or obligations in the accompanying consolidated financial statements. Although the Company files U.S. federal and state tax returns, the Company’s major tax jurisdiction is U.S. federal. The Company’s U.S. federal tax years subsequent to 2016 remain subject to examination by taxing authorities.

Distributions

Distributions to stockholders are recorded on the applicable record date. The amount to be paid out as a dividend is determined by the Company’s board of directors on a quarterly basis. Net realized capital gains, if any, are generally distributed at least annually out of assets legally available for such distributions, although the Company may decide to retain such capital gains for investment.

Capital transactions in connection with the Company’s dividend reinvestment plan are recorded when shares are issued.

Recent Accounting Pronouncements

In August 2018, the FASB issued ASU 2018-13, “Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement”, which impacts fair value disclosure for both private and public companies. ASU 2018-13 removes, modifies, and adds certain fair value related disclosures. ASU 2018-13 is effective for annual and interim reporting periods beginning after December 15, 2019. The Company adopted this standard effective January 1, 2020, which did not have a material impact on its consolidated financial statements.

In accordance with the authoritative guidance on fair value measurements and disclosures under GAAP, the Company discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). If any transfers occur between the levels or categories of the fair value hierarchy, they are assumed to have occurred at the beginning of the period. The guidance establishes three levels of the fair value hierarchy as follows:

Level 1—Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2—Quoted prices in markets that are not considered to be active or financial instruments for which significant inputs are observable, either directly or indirectly;

Level 3—Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The level of an asset or liability within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by management.

The Company considers whether the volume and level of activity for the asset or liability have significantly decreased and identifies transactions that are not orderly in determining fair value. Accordingly, if the Company determines that either the volume and/or level of activity for an asset or liability has significantly decreased (from normal conditions for that asset or liability) or price quotations or observable inputs are not associated with orderly transactions, increased analysis and management judgment will be required to estimate fair value. Valuation techniques such as an income approach might be appropriate to supplement or replace a market approach in those circumstances.

The Company has adopted the authoritative guidance under GAAP for estimating the fair value of investments in investment companies that have calculated net asset value per share in accordance with the specialized accounting guidance for investment companies. Accordingly, in circumstances in which net asset value per share of an investment is determinative of fair value, the Company estimates the fair value of an investment in an investment company using the net asset value per share of the investment (or its equivalent) without further adjustment if the net asset value per share of the investment is determined in accordance with the specialized accounting guidance for investment companies as of the reporting entity's measurement date. Redemptions are not generally permitted in the Company's investments in funds. The remaining term of the Company's investments in funds is expected to be within one to four years.

The following provides quantitative information about Level 3 fair value measurements as of March 31, 2020:

Description	Fair Value	Valuation Technique	Unobservable Inputs	Weighted Range (Average) (1)

(1) Averages were determined using a weighted average based upon the fair value of the investments in each investment category.

The primary significant unobservable input used in the fair value measurement of the Company's debt securities (first lien secured debt and second lien debt), including income-producing investments in funds and income producing securities and payment rights is the comparative yield. Significant increases (decreases) in the comparative yield in isolation would result in a significantly lower (higher) fair value measurement. In determining the comparative yield for the income or yield approach, the Company considers current market yields and multiples, portfolio company performance, leverage levels, credit quality, among other factors, including U.S. federal tax rates, in its analysis. Changes in one or more of these factors can have a similar directional change on other factors in determining the appropriate comparative yield to use in the income approach.

The primary significant unobservable input used in the fair value measurement of the Company's equity investments, investments in warrants and debt investments where the Company has a controlling equity investment is the EBITDA multiple adjusted by management for differences between the investment and referenced comparables, or the multiple. Significant increases (decreases) in the multiple in isolation would result in a significantly higher (lower) fair value measurement. To determine the multiple for the market approach, the Company considers current market trading and/or transaction multiples, portfolio company performance (financial ratios) relative to public and private peer companies and leverage levels, among other factors. Changes in one or more of these factors can have a similar directional change on other factors in determining the appropriate multiple to use in the market approach.

THL Credit Logan JV LLC

On December 3, 2014, the Company entered into an agreement with Perspecta Trident LLC, an affiliate of Perspecta Trust LLC, or Perspecta, to create THL Credit Logan JV LLC, or Logan JV, a joint venture, which invests primarily in senior secured first lien term loans. All Logan JV investment decisions must be unanimously approved by the Logan JV investment committee consisting of one representative from each of the Company and Perspecta.

The Company has determined that Logan JV is an investment company under ASC 946, however, in accordance with such guidance, the Company will generally not consolidate its investment in a company other than a wholly owned investment company subsidiary or a controlled operating company whose business consists of providing services to the Company. Accordingly, the Company does not consolidate its non-controlling interest in Logan JV.

Logan JV is capitalized with capital contributions which are generally called from its members, on a pro-rata basis based on their capital commitments, as transactions are completed. Any decision by the Logan JV to call down on capital commitments requires the explicit authorization of the Company, coupled with that of Perspecta, and the Company may withhold such authorization for any reason in its sole discretion.

As of March 31, 2020 and December 31, 2019, Logan JV had the following commitments, contributions and unfunded commitments from its Members.

(1) Weighted average yield at their current amortized cost.

(2) At current principal amount.

The weighted average yield of Logan JV's debt investments is not the same as a return on Logan JV investment for the Company's stockholders but, rather, relates to a portion of the Company's investment portfolio and is calculated before the payment of the Company's expenses. The weighted average yield was computed using the effective interest rates as of March 31, 2020 and December 31, 2019, respectively. There can be no assurance that the weighted average yield will remain at its current level.

For three months ended March 31, 2020 and 2019, the Company's share of income from distributions related to its Logan JV LLC equity interest was \$2,320 and \$2,600, respectively, which amounts are included in dividend income from controlled investments in the Consolidated Statement of Operations and reduction of cost basis on the Consolidated Statements of Assets and Liabilities. As of March 31, 2020 and December 31, 2019, \$2,585 and \$2,593, respectively, of income related to the Logan JV was included in interest, dividends and fees receivable on the Consolidated Statements of Assets and Liabilities. As of March 31, 2020 and December 31, 2019, \$327 and \$327, respectively, of return of capital associated with distribution declared was included the Distribution receivable on the Consolidated Statements of Assets and Liabilities. As of March 31, 2020, distributions declared and earned of \$9,584 for the twelve months ended March 31, 2020, represented a dividend yield to the Company of 10.1% based upon average capital invested. As of December 31, 2019, distributions declared and earned of \$9,760 for the twelve months ended December 31, 2019, represented a dividend yield to the Company of 10.5% based upon average capital invested.

Revolving and Unfunded Delayed Draw Loans

For the Company's investments in revolving and delayed draw loans, the cost basis of the investments purchased is adjusted for the cash received for the discount on the total balance committed. The fair value is also adjusted for price appreciation or depreciation on the unfunded portion. As a result, the purchase of commitments not completely funded may result in a negative value until it is offset by the future amounts called and funded.

Investment Management Agreement

On January 28, 2020, the Company's Board unanimously approved an interim investment management agreement (the "Interim Investment Management Agreement") that includes substantially the same terms as the amended and restated investment management agreement which became effective on June 14, 2019 (the "Prior Investment Advisory Agreement"). The Interim Investment Management Agreement became effective January 31, 2020. Consistent with the terms under the Prior Investment Advisory Agreement, under the Interim Investment Management Agreement, the Advisor, subject to the overall supervision of the Company's board of directors, manages the day-to-day operations of, and provides investment advisory services to the Company.

On January 28, 2020, the Company's Board also unanimously approved a new investment management agreement (the "New Investment Management Agreement") between the Company and the Advisor. All material terms of the New Investment Management Agreement will remain unchanged from the material terms of the Prior Investment Advisory Agreement. The New Investment Management Agreement is subject to stockholder approval for which a special stockholder meeting has been called for May 28, 2020. The Interim Investment Management Agreement will remain in place until June 29, 2020, unless the Company receives stockholder approval of the New Investment Management Agreement prior to the termination date or exemptive relief is sought and obtained from the SEC to extend the term of the Interim Investment Management Agreement or permit the entrance into an additional interim investment management agreement. Upon receipt of stockholder approval, the Interim Investment Management Agreement will terminate immediately and the New Investment Management Agreement will go into effect. Advisory fees earned under the Interim Investment Management Agreement will be escrowed pending stockholder approval of the New Investment Management Agreement.

Base Management Fee

For the three months ended March 31, 2020, the base management fee is calculated at an annual rate of 1.0% of the Company's gross assets payable quarterly in arrears on a calendar quarter basis. The 1.0% rate is pursuant to the Prior Investment Advisory Agreement through January 30, 2020 and remained unchanged through March 31, 2020 under the Interim Investment Management Agreement. For the three months ended March 31, 2019, the base management fee was calculated at an annual rate of 1.5% of the Company's gross assets payable quarterly in arrears on a calendar quarter basis.

For purposes of calculating the base management fee, "gross assets" is determined as the value of the Company's assets without deduction for any liabilities. The base management fee is calculated based on the value of the Company's gross assets at the end of the most recently completed calendar quarter, and appropriately adjusted for any share issuances or repurchases during the current calendar quarter.

For the three months ended March 31, 2020 and 2019, the Company incurred base management fees of \$1,024 and \$1,910, respectively. As of March 31, 2020 and December 31, 2019, \$1,024 and \$1,103, respectively, was payable to the Advisor. \$686 of the base management fees incurred during the three months ended March 31, 2020 will remain in escrow until stockholder approval of the New Investment Management Agreement.

On March 3, 2020, the Company approved a proposal from the Advisor to irrevocably waive management and incentive fees for the Company for the period from July 1, 2020 through December 31, 2020 if the Company's stockholders approve the New Investment Management Agreement by and between the Company and the Advisor. The Advisor has subsequently agreed to extend the management and incentive fee waiver through March 31, 2021 if the Company's stockholders approve the New Investment Management Agreement.

Incentive Fee

The incentive fee consists of two components as described in detail below: incentive fee on net investment income and incentive fee on capital gains. The two components are determined independent of each other.

If, at any time during the fiscal year 2020, the aggregate incentive fees on Net Investment Income on a quarterly basis, as calculated based on the Interim Investment Management Agreement and the New Investment Management Agreement, if approved by stockholders, described herein as the Reduced Incentive Fee on Net Investment Income, is greater than the aggregate incentive fees on such applicable quarter, as calculated based on the incentive fee formula as reflected in the original investment management agreement prior to giving effect to the Prior Investment Advisory Agreement, the Advisor will waive such excess.

Incentive Fee on Net Investment Income as of January 1, 2020

The Prior Investment Advisory Agreement and subsequently the Interim Investment Management Agreement modified the incentive fee on net investment income as indicated below (“Reduced Incentive Fee on Net Investment Income”). The Reduced Incentive Fee on Net Investment Income is calculated by reference to the most recent trailing twelve quarter period or, if shorter, the number of quarters that have occurred since January 1, 2018 (“Trailing Twelve Quarter Period”), rather than on the standalone quarterly basis as set forth in the original investment management agreement. Pre-incentive fee net investment income is expressed as a rate of return on the value of the Company’s net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) at the beginning of each applicable calendar quarter comprising of the relevant Trailing Twelve Quarter Period. The hurdle amount for incentive fee based on pre-incentive fee net investment income continues to be determined on a quarterly basis and equal to 2.0% (which is 8.0% annualized) but is multiplied by the net asset value attributable to the Company’s common stock at the beginning of each applicable calendar quarter comprising the relevant Trailing Twelve Quarter Period (also referred to as “minimum income level”). The hurdle amount will be calculated after making appropriate adjustments for subscriptions (which includes all issuances by the Company of shares of our common stock, including issuances pursuant to its dividend reinvestment plan) and distributions that occurred during the relevant Trailing Twelve Quarter Period.

The calculation of pre-incentive fee net investment income continues to mean interest income, amortization of original issue discount, commitment and origination fees, dividend income and any other income (including any other fees, such as, structuring, diligence, managerial assistance and consulting fees or other fees that we receive from portfolio companies) accrued during the calendar quarter, minus the Company’s operating expenses for the quarter (including the base management fee, expenses payable under the Company’s administration agreement (discussed below), and any interest expense and any dividends paid on any issued and outstanding preferred stock, but excluding the incentive fee and any offering expenses and other expenses not charged to operations but excluding certain reversals to the extent such reversals have the effect of reducing previously accrued incentive fees based on the deferral of non-cash interest. Furthermore, pre-incentive fee net investment income continues to include, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with PIK interest and zero coupon securities), accrued income that we have not yet received in cash.

The incentive fee based on pre-incentive net investment income for each quarter will be determined as follows:

- The Advisor receives no incentive fee for any calendar quarter in which the Company’s pre-incentive fee net investment income does not exceed the minimum income level.
- Subject to the Incentive Fee Cap (as defined below), the Advisor receives 100% of the Company’s pre-incentive fee net investment income for the Trailing Twelve Quarters with respect to that portion of the pre-incentive net investment income for such quarter, if any, that exceeds the minimum income level but is less than 2.5% (which is 10.0% annualized) (also referred to as the “catch-up” provision); and
- 17.5% of the Company’s pre-incentive fee net investment income, if any, greater than 2.5% (10.0% annualized) for the Trailing Twelve Quarter Period.

The amount of the incentive fee on pre-incentive net investment income that will be paid for a particular quarter will equal the excess of the incentive fee so calculated minus the aggregate incentive fees on pre-incentive net investment income that were paid in respect of the eleven calendar quarters (or if shorter, the appropriate number of quarters that have occurred since January 1, 2018) included in the relevant Trailing Twelve Quarters but not in excess of the Incentive Fee Cap (as described below).

The foregoing incentive fee is subject to an Incentive Fee Cap (as defined below). The Incentive Fee Cap for any quarter is an amount equal to (a) 17.5% of the Cumulative Net Return (as defined below) during the relevant Trailing Twelve Quarter Period, minus (b) the aggregate incentive fees based on income that were paid in respect of the first eleven calendar quarters (or the portion thereof) included in the relevant Trailing Twelve Quarter Period. “Cumulative Net Return” means (x) pre-incentive fee net investment income in respect of the relevant Trailing Twelve Quarter Period minus (y) any Net Capital Loss, if any, in respect of the relevant Trailing Twelve Quarter Period. If, in any quarter, the Incentive Fee Cap is zero or a negative value, the Company pays no incentive fee based on income to the Advisor for such quarter. If, in any quarter, the Incentive Fee Cap for such quarter is a positive value but is less than the incentive fee based on pre-incentive net investment income that is payable to the Advisor for such quarter (before giving effect to the Incentive Fee Cap) calculated as described above, the Company pays an incentive fee based on pre-incentive fee net investment income to the Advisor equal to the Incentive Fee Cap for such quarter. If, in any quarter, the Incentive Fee Cap for such quarter is equal to or greater than the incentive fee based on pre-incentive fee net investment income that is payable to the Advisor for such quarter (before giving effect to the Incentive Fee Cap) calculated as described above, the Company pays an incentive fee based on income to the Advisor equal to the incentive fee calculated as described above for such quarter without regard to the Incentive Fee Cap. “Net Capital Loss” in respect of a particular period means the difference, if positive, between (i) aggregate capital losses, whether realized or unrealized, in such period and (ii) aggregate capital gains, whether realized or unrealized, in such period.

Additionally, if, at any time during the fiscal year 2020, the aggregate incentive fees on a quarterly basis, as calculated based on the amended and restated investment management agreement, described herein as the Reduced Incentive Fee on Net Investment Income is greater than the aggregate incentive fees on such applicable quarter, as calculated based on the incentive fee formula as reflected in the original investment management agreement prior to giving effect to the Prior Investment Advisory Agreement and subsequently the Interim Investment Management Agreement, the Advisor will waive such excess.

For the three months ended March 31, 2020, the Company would have incurred \$0 of incentive fees related to ordinary income under this calculation.

For the three months ended March 31, 2019, the Company would have incurred \$0 of incentive fees related to ordinary income under the new calculation. These fees were calculated based on the incentive fee rate of 20.0% which was in effect through June 14, 2019, the date when a reduced rate of 17.5% was approved by the shareholders.

Incentive Fee on Net Investment Income Prior to January 1, 2018 Pursuant to the Original Investment Management Agreement

The incentive fee on net investment income is calculated, and payable, quarterly in arrears based on the Company's pre-incentive fee net investment income for the immediately preceding calendar quarter, subject to a cumulative total return requirement and to deferral of non-cash amounts. The pre-incentive fee net investment income, which is expressed as a rate of return on the value of the Company's net assets attributable to its common stock, for the immediately preceding calendar quarter, will have a 2.0% (which is 8.0% annualized) hurdle rate (also referred to as "minimum income level"). Pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees, such as commitment, origination, structuring, diligence, managerial assistance and consulting fees or other fees that we receive from portfolio companies) accrued during the calendar quarter, minus our operating expenses for the quarter (including the base management fee, expenses payable under our administration agreement (discussed below), and any interest expense and any dividends paid on any issued and outstanding preferred stock, but excluding the incentive fee and any offering expenses and other expenses not charged to operations but excluding certain reversals to the extent such reversals have the effect of reducing previously accrued incentive fees based on the deferral of non-cash interest. Pre-incentive fee net investment income includes, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with PIK interest and zero coupon securities), and accrued income that we have not yet received in cash. The Advisor receives no incentive fee for any calendar quarter in which the Company's pre-incentive fee net investment income does not exceed the minimum income level. Subject to the cumulative total return requirement described below, the Advisor receives 100% of the Company's pre-incentive fee net investment income for any calendar quarter with respect to that portion of the pre-incentive fee net investment income for such quarter, if any, that exceeds the minimum income level but is less than 2.5% (which is 10.0% annualized) of net assets (also referred to as the "catch-up" provision) and 20.0% of the Company's pre-incentive fee net investment income for such calendar quarter, if any, greater than 2.5% (10.0% annualized) of net assets.

The foregoing incentive fee is subject to a total return requirement, which provides that no incentive fee in respect of the Company's pre-incentive fee net investment income is payable except to the extent 20.0% of the cumulative net increase in net assets resulting from operations over the then current and 11 preceding calendar quarters exceeds the cumulative incentive fees accrued and/or paid for the 11 preceding quarters. In other words, any ordinary income incentive fee that is payable in a calendar quarter is limited to the lesser of (i) 20% of the amount by which our pre-incentive fee net investment income for such calendar quarter exceeds the 2.0% hurdle, subject to the "catch-up" provision, and (ii) (x) 20% of the cumulative net increase in net assets resulting from operations for the then current and 11 preceding quarters minus (y) the cumulative incentive fees accrued and/or paid for the 11 preceding calendar quarters. For the foregoing purpose, the "cumulative net increase in net assets resulting from operations" is the amount, if positive, of the sum of the Company's pre-incentive fee net investment income, base management fees, realized gains and losses and unrealized appreciation and depreciation for the then current and 11 preceding calendar quarters. In addition, the portion of such incentive fee that is attributable to deferred interest (sometimes referred to as payment-in-kind interest, or PIK, or original issue discount, or OID) will be paid to the Advisor, together with interest thereon from the date of deferral to the date of payment, only if and to the extent we actually receive such interest in cash, and any accrual thereof will be reversed if and to the extent such interest is reversed in connection with any write-off or similar treatment of the investment giving rise to any deferred interest accrual. There is no accumulation of amounts on the hurdle rate from quarter to quarter and accordingly there is no clawback of amounts previously paid if subsequent quarters are below the quarterly hurdle rate and there is no delay of payment if prior quarters are below the quarterly hurdle rate.

Pre-incentive fee net investment income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. Because of the structure of the incentive fee, it is possible that the Company may pay an incentive fee in a quarter where it incurs a loss, subject to the total return requirement and deferral of non-cash amounts. For example, if the Company receives pre-incentive fee net investment income in excess of the quarterly minimum hurdle rate, it will pay the applicable incentive fee even if the Company has incurred a loss in that quarter due to realized and unrealized capital losses. The Company's net investment income used to calculate this component of the incentive fee is also included in the amount of its gross assets used to calculate the base management fee. These calculations will be appropriately prorated for any period of less than three months and adjusted for any share issuances or repurchases during the current quarter.

For the three months ended March 31, 2020 and 2019, the Company would have incurred no incentive fees related to ordinary income under the old calculation.

Incentive Fee on Net Investment Income Payable

For the three months ended March 31, 2020 and 2019, the Company reversed \$411 and \$0, respectively, of incentive fees related to the adjustment of previously deferred incentive fees. As of March 31, 2020 and December 31, 2019, no incentive fees related to previously deferred income now received in cash are currently payable to the Advisor. As of March 31, 2020 and December 31, 2019, \$156 and \$568, respectively of incentive fees incurred by the Company were generated from deferred interest (i.e. PIK, certain discount accretion and deferred interest) and are not payable until such amounts are received in cash. These amounts are reflected in accrued incentive fees on the Consolidated Statements of Assets and Liabilities.

Incentive Fee on Capital Gains

The second component of the incentive fee (capital gains incentive fee) is determined and payable in arrears as of the end of each calendar year (or upon termination of the investment management agreement, as of the termination date). Effective June 14, 2019, this component is equal to 17.5% (prior thereto before giving effect to any waivers was 20.0%) of the Company's cumulative aggregate realized capital gains from inception through the end of that calendar year, computed net of the cumulative aggregate realized capital losses and cumulative aggregate unrealized capital depreciation through the end of such year. The calculation of the capital gains incentive fee has not been modified or waived. The aggregate amount of any previously paid capital gains incentive fees is subtracted from such capital gains incentive fee calculated. There was no capital gains incentive fee payable to the Company's Advisor under the Interim Investment Management Agreement and Prior Investment Advisory Agreement as of March 31, 2020 and December 31, 2019.

GAAP Incentive Fee Accrual

GAAP requires that the incentive fee accrual be calculated assuming a hypothetical liquidation of the Company at the balance sheet date. A hypothetical liquidation considers the cumulative aggregate realized gains and losses and unrealized capital appreciation or depreciation of investments or other financial instruments, in the calculation, as an incentive fee would be payable if such realized gains and losses or unrealized capital appreciation or depreciation were realized, even though such realized gains and losses and unrealized capital appreciation or depreciation is not permitted to be considered in calculating the fee actually payable under the investment management agreement ("GAAP Incentive Fee"). There can be no assurance that such unrealized appreciation or depreciation will be realized in the future. Accordingly, such fee, as calculated and accrued, would not necessarily be payable under the investment management agreement, and may never be paid based upon the computation of incentive fees in subsequent periods. For the three months ended March 31, 2020 and 2019, the Company incurred no incentive fees related to the GAAP incentive fee.

Administration Agreement

The Company has also entered into an administration agreement with the Advisor on January 31, 2020 that includes substantially the same terms as the prior administration agreement and under which the Advisor will provide administrative services to the Company. Under the administration agreement, the Advisor performs, or oversees the performance of administrative services necessary for the operation of the Company, which include, among other things, being responsible for the financial records which the Company is required to maintain and preparing reports to the Company's stockholders and reports filed with the SEC. In addition, the Advisor assists in determining and publishing the Company's net asset value, oversees the preparation and filing of the Company's tax returns and the printing and dissemination of reports to the Company's stockholders, and generally oversees the payment of the Company's expenses and the performance of administrative and professional services rendered to the Company by others. The Company will reimburse the Advisor for its allocable portion of the costs and expenses incurred by the Advisor for overhead in performance by the Advisor of its duties under the administration agreement and the investment management agreement, including facilities, office equipment and the Company's allocable portion of cost of compensation and related expenses of the Company's chief financial officer and chief compliance officer and their respective staffs, as well as any costs and expenses incurred by the Advisor relating to any administrative or operating services provided by the Advisor to the Company. The Company's board of directors reviews the allocation methodologies with respect to such expenses. Such costs are reflected as administrator expenses in the accompanying Consolidated Statements of Operations. Under the administration agreement, the Advisor provides, on behalf of the Company, managerial assistance to those portfolio companies to which the Company is required to provide such assistance. To the extent that the Company's Advisor outsources any of its functions, the Company pays the fees associated with such functions on a direct basis without profit to the Advisor.

For the three months ended March 31, 2020 and 2019, the Company incurred administrator expenses of \$327 and \$449, respectively. As of March 31, 2020, \$77 of administrator expenses were due to Advisor, which is included in accrued administrator expenses on the Consolidated Statement of Assets and Liabilities. As of December 31, 2019, \$122 of administrator expenses were due from the Advisor which was included in due from affiliate on the Consolidated Statement of Assets and Liabilities.

License Agreement

On January 31, 2020, the Company's investment advisor, First Eagle Alternative Credit, LLC ("FEAC"), entered into an agreement with Thomas H. Lee Partners, L.P. ("THL Partners") under which THL Partners granted to the Company and FEAC a limited, non-exclusive, worldwide, non-transferable, non-sublicensable right to use the trade name and service mark THL, which is a proprietary mark of THL Partners, for specified purposes in connection with its respective businesses (the "New License Agreement"). The New License Agreement replaced the prior license agreement granted to the Company by THL Partners, which terminated on January 31, 2020 in connection with the acquisition of FEAC by First Eagle Investment Management, LLC. As with the prior license agreement, the New License Agreement is royalty-free, which means the Company is not charged a fee for its use of the trade name and service mark THL. The New License Agreement terminates in full on the date that is two hundred (200) days after January 31, 2020. The New License Agreement is also terminable by THL Partners upon fifteen (15) days written notice for breach of its terms. Upon termination of the New License Agreement, the Company and FEAC must cease to use the name and mark THL, including any use in its respective legal names, filings, listings and other uses that may require the Company to withdraw or replace its names and marks. Other than with respect to the limited rights contained in the New License Agreement, the Company and FEAC have no right to use, or other rights in respect of, the THL name and mark. The Company is an entity operated independently from THL Partners, and third parties who deal with it have no recourse against THL Partners.

Managed Funds

The Advisor and its affiliates may also manage other funds in the future that may have investment mandates that are similar, in whole or in part, with ours. For example, the Advisor may serve as investment adviser to one or more private funds, registered closed-end funds and collateralized loan obligations (CLO). In addition, the Company's officers may serve in similar capacities for one or more private funds, registered closed-end funds and CLOs. The Advisor and its affiliates may determine that an investment is appropriate for us and for one or more of those other funds. In such event, depending on the availability of such investment and other appropriate factors, the Advisor or its affiliates may determine that the Company should invest side-by-side with one or more other funds. The Advisor's policies are designed to manage and mitigate the conflicts of interest associated with the allocation of investment opportunities if we are able to co-invest, either pursuant to SEC interpretive positions or an exemptive order, with other funds managed by the Advisor and its affiliates. As a result, the Advisor and/or its affiliates may face conflicts in allocating investment opportunities between us and such other entities. Although the Advisor and its affiliates will endeavor to allocate investment opportunities in a fair and equitable manner and consistent with applicable allocation procedures, it is possible that we may not be given the opportunity to participate in investments made by investment funds managed by the Advisor or its affiliates.

The 1940 Act generally prohibits BDCs from making certain negotiated co-investments with affiliates absent an order from the SEC permitting the BDC to do so. The SEC has granted the Company the relief it sought in an exemptive application that expands the Company's ability to co-invest in portfolio companies with certain other funds managed by the Advisor or its affiliates ("Affiliated Funds") and, subject to certain conditions, proprietary accounts of the Advisor or its affiliates ("Proprietary Accounts") in a manner consistent with the Company's investment objective, positions, policies, strategies and restrictions as well as regulatory requirements and other pertinent factors, subject to compliance with certain conditions (the "Order"). Pursuant to the Order, the Company is permitted to co-invest with Affiliated Funds and/or Proprietary Accounts if, among other things, a "required majority" (as defined in Section 57(o) of the 1940 Act) or its independent directors make certain conclusions in connection with a co-investment transaction, including that (1) the terms of the transactions, including the consideration to be paid, are reasonable and fair to the Company and its stockholders and do not involve overreaching of the Company or its stockholders on the part of any person concerned, and (2) the transaction is consistent with the interests of the Company's stockholders and is consistent with its investment objective and strategies.

Greenway

On January 14, 2011, THL Credit Greenway Fund LLC, or Greenway, was formed as a Delaware limited liability company. Greenway is a portfolio company of the Company. Greenway is a closed-end investment fund which provides for no liquidity or redemption options and is not readily marketable. Greenway operates under a limited liability agreement dated January 19, 2011, or the Agreement. Greenway will continue in existence until January 14, 2021, subject to earlier termination pursuant to certain terms of the Agreement. The term may also be extended for up to three additional one-year periods pursuant to certain terms of the Agreement. Greenway had a two year investment period.

Greenway had \$150,000 of capital committed by affiliates of a single institutional investor and is managed by the Company. The Company's capital commitment to Greenway is \$15. As of March 31, 2020, Greenway's committed capital had been fully called. The Company's nominal investment in Greenway is reflected in the March 31, 2020 and December 31, 2019 Consolidated Schedules of Investments.

The Company acts as the investment adviser to Greenway and is entitled to receive certain fees relating to its investment management services provided, including a base management fee, a performance fee and a portion of the closing fees on each investment transaction. As a result, Greenway is classified as an affiliate of the Company. For the three months ended March 31, 2020, the Company earned \$7 in fees related to Greenway, which is included in other income from non-controlled, affiliated investments in the Consolidated Statements of Operations. For the three months ended March 31, 2019, the Company earned \$13 in fees related to Greenway, which is included in other income from non-controlled, affiliated investments in the Consolidated Statements of Operations. As of March 31, 2020 and December 31, 2019, \$7 and \$10 of fees and expenses related to Greenway, respectively, were included in due from affiliate on the Consolidated Statements of Assets and Liabilities.

Greenway invested in securities similar to those of the Company pursuant to investment and allocation guidelines which address, among other things, the size of the borrowers, the types of transactions and the concentration and investment ratio amongst Greenway and the Company. However, the Company has the discretion to invest in other securities.

Greenway II

On January 31, 2013, THL Credit Greenway Fund II, LLC, or Greenway II LLC, was formed as a Delaware limited liability company and is a portfolio company of the Company. Greenway II LLC is a closed-end investment fund which provides for no liquidity or redemption options and is not readily marketable. Greenway II LLC operates under a limited liability agreement dated February 11, 2013, as amended, or the Greenway II LLC Agreement. Greenway II LLC will continue until October 10, 2021, subject to earlier termination pursuant to certain terms of the Greenway II LLC Agreement. The term may also be extended for up to three additional one-year periods pursuant to certain terms of the Greenway II LLC Agreement. Greenway II LLC has a two year investment period.

As contemplated in the Greenway II LLC Agreement, the Company has established a related investment vehicle and entered into an investment management agreement with an account set up by an unaffiliated third party investor to invest alongside Greenway II LLC pursuant to similar economic terms. The account is also managed by the Company. References to "Greenway II" herein include Greenway II LLC and the account of the related investment vehicle. Greenway II had \$186,500 of capital commitments primarily from institutional investors. As of March 31, 2020, Greenway II's committed capital had been fully called. The Company's nominal investment in Greenway II is reflected in the March 31, 2020 and December 31, 2019 Consolidated Schedules of Investments.

The Company acts as the investment adviser to Greenway II and is entitled to receive certain fees relating to its investment management services provided, including a base management fee, a performance fee and a portion of the closing fees on each investment transaction. As a result, Greenway II is classified as an affiliate of the Company. For the three months ended March 31, 2020 and 2019, the Company earned \$75 and \$128, respectively, in fees related to Greenway II, which are included in other income from non-controlled, affiliated investments in the Consolidated Statements of Operations. As of March 31, 2020 and December 31, 2019, \$112 and \$55, respectively, of fees related to Greenway II and legal expenses related to certain former portfolio companies were included in due from affiliate on the Consolidated Statements of Assets and Liabilities.

Greenway II invested in securities similar to those of the Company pursuant to investment and allocation guidelines which address, among other things, the size of the borrowers, the types of transactions and the concentration and investment ratio amongst Greenway II and the Company. However, the Company has the discretion to invest in other securities.

Due To and From Affiliates

The Advisor paid certain other general and administrative expenses on behalf of the Company. As of March 31, 2020 and December 31, 2019, there were \$172 and \$120 of general and administrative fees, respectively, due to affiliate, which was included in accrued expenses and other payables on the Consolidated Statements of Assets and Liabilities.

As of March 31, 2020, the Company owed the Advisor \$77 of administrator expenses, which is included in accrued administrator expenses on the Consolidated Statements of Assets and Liabilities. As of December 31, 2019, the Advisor owed \$122 of administrator expenses as a reimbursement to the Company, which was included in due from affiliate on the Consolidated Statements of Assets and Liabilities.

The Company acts as the investment adviser to Greenway and Greenway II and is entitled to receive certain fees. As a result, Greenway and Greenway II are classified as affiliates of the Company. As of March 31, 2020 and December 31, 2019, \$119 and \$65 of total fees and expenses related to Greenway and Greenway II, respectively, were included in due from affiliate on the Consolidated Statements of Assets and Liabilities.

For the Company's controlled equity investments, as of March 31, 2020, it had \$3,272 of dividends receivable from Logan JV and C&K Market, Inc. included in interest, dividends, and fees receivable on the Consolidated Statements of Assets and Liabilities. As of December 31, 2019, it had \$3,290 of dividends receivable from Logan JV and C&K Market, Inc. and \$257 of interest and fees from OEM Group, LLC, included in interest, dividends, and fees receivable on the Consolidated Statements of Assets and Liabilities.

5. Realized Gains and Losses on Investments, net of income tax provision

The following shows the breakdown of net realized gains and losses for the three months ended March 31, 2020 and 2019:

	For the three months ended March 31,	
	2020	2019
Aerogroup International Inc. (1)	\$ 90	\$ (825)
Alex Toys, LLC (2)	—	(1,460)
Charming Charlie LLC (3)	(1,565)	—
Copperweld Bimetallics, LLC (4)	(257)	—
Tri Starr Management Services, Inc. (5)	—	442
Other	118	(132)
Net realized losses	<u>\$ (1,614)</u>	<u>\$ (1,975)</u>

- (1) In March 2018, Aerogroup International Inc. was sold through bankruptcy proceedings and the Company received \$2,494 in proceeds with an additional \$6,295 reflected as escrow and other receivables. The escrow and other receivable had been adjusted for the three months ended March 31, 2019 to reflect future collectability. Subsequently, the Company collected the outstanding escrow proceeds in cash through June 2019 realizing additional losses to reflect amounts collected and associated expenses. In 2020, the Company reversed a portion of the realized losses recorded in 2019 to true up expected accrued expenses related to the bankruptcy proceedings.
- (2) On January 11, 2019, the Company sold its first lien senior secured term loan in Alex Toys, LLC for total proceeds of \$7,699. The realized loss of \$1,460 was offset by a corresponding change in unrealized appreciation in the same amount.
- (3) On July 11, 2019, Charming Charlie LLC filed for Chapter 11 bankruptcy protection in Delaware with plans to liquidate the company and any of its remaining assets. In connection with the liquidation, the Company removed Charming Charlie from Investments, at fair value and reflected the expected liquidation proceeds as escrow and other receivables on the Consolidated Statements of Assets and Liabilities. Charming Charlie has ceased its operations and has been actively liquidating its assets. In 2020, the Company recorded a realized loss to reflect the collectability of the remaining receivable balance, which is expected to be collected in the near term.
- (4) On September 28, 2019, the Company was repaid on its second lien term loan in connection with the sale of its controlling common and preferred equity positions in Copperweld Bimetallics LLC with proceeds received of \$32,519 with an additional \$1,748 in escrow proceeds that were reflected as escrow and other receivables. Subsequently, the Company collected \$913 in escrow proceeds in cash through March 2020 and realized additional losses to reflect the collectability of the remaining escrow and other receivables balance.
- (5) On February 5, 2019, the Company received an additional \$442 in cash proceeds related to the final purchase price true-up in connection with the sale of its investment in Tri-Starr Management Services, Inc. in October 2018.

6. Net (Decrease) Increase in Net Assets Per Share Resulting from Operations

The following information sets forth the computation of basic and diluted net increase in net assets per share resulting from operations:

	<u>For the three months ended March 31,</u>	
	2020	2019
Numerator—net (decrease) increase in net assets resulting from operations:	\$ (66,156)	\$ 194
Denominator—basic and diluted weighted average common shares:	29,813	32,289
Basic and diluted net (decrease) increase in net assets per common share resulting from operations:	\$ (2.22)	\$ 0.01

Diluted net (decrease) increase in net assets per share resulting from operations equals basic net (decrease) increase in net assets per share resulting from operations for each period because there were no common stock equivalents outstanding during the above periods.

7. Borrowings

The following shows a summary of the Company's borrowings as of March 31, 2020 and December 31, 2019:

- (1) As of March 31, 2020, excludes deferred financing costs of \$989 for the 2022 Notes and \$1,551 for the 2023 Notes, respectively, presented as a reduction to the respective balances outstanding in the Consolidated Statements of Assets and Liabilities.
- (2) Represents the weighted average borrowings outstanding for the three months ended March 31, 2020.
- (3) As of December 31, 2019, excludes deferred financing costs of \$1,081 for the 2022 Notes and \$1,661 for the 2023 Notes presented as a reduction to the respective balances outstanding in the Consolidated Statements of Assets and Liabilities.
- (4) Represents the weighted average borrowings outstanding for the year ended December 31, 2019.
- (5) As part of Amendment No.4 to Second Amended and Restated Senior Secured Revolving Credit Agreement dated March 13, 2020, the revolver commitments have been reduced to \$150,000 from \$190,000.
- (6) Represents the weighted average interest rate as of March 31, 2020 and December 31, 2019.

Credit Facility

On December 15, 2017, the Company entered into an amendment, or the Revolving Amendment, to its existing revolving credit agreement, or Revolving Facility. The Revolving Amendment revised the Revolving Facility dated August 19, 2015 to, among other things, extend the maturity date from August 2019 to December 2022 (with a one year term out period beginning in December 2021). The one year term out period is the one year anniversary between the revolver termination date, or the end of the availability period, and the maturity date. During this time, the Company is required to make mandatory prepayments on its loans from the proceeds it receives from the sale of assets, extraordinary receipts, returns of capital or the issuances of equity or debt. On March 26, 2019, the Company entered into Amendment No. 1 which amended the Revolving Facility to, among other things, reduce the size of the commitments from \$275,000 to \$190,000, provide a \$20,000 letter of credit subfacility and lower the testing levels of certain financial covenants. On March 13, 2020, the Company entered into Amendment No.4 which further amended the Revolving Facility to, among other things, reduce the size of commitments from \$190,000 to \$150,000.

The Revolving Facility, denominated in U.S. dollars, has an interest rate of LIBOR plus 2.5% (with no LIBOR floor). The Revolving Facility, denominated in CAD, has an interest rate of CDOR plus 2.5% (with no CDOR floor). The non-use fee is 1.0% annually if the Company uses 35% or less of the Revolving Facility and 0.50% annually if the Company uses more than 35% of the Revolving Facility. The Company elects the LIBOR or CDOR rates on the loans outstanding on its Revolving Facility, which has a LIBOR or CDOR period that is one, two, three or nine months. The LIBOR rate on the USD borrowings outstanding on its Revolving Facility had a one month LIBOR period as of March 31, 2020.

As of March 31, 2020, the Company had USD borrowings of \$81,661 outstanding under the Revolving Facility with a quarter-end interest rate of 3.31%. There were no CAD borrowings outstanding on its Revolving Facility as of March 31, 2020.

The Revolving Facility includes an accordion feature permitting the Company to expand the Revolving Facility, if certain conditions are satisfied; provided, however, that the aggregate amount of the Revolving Facility, collectively, is capped. The Second Revolving Amendment revised the cap from \$600,000 to \$500,000.

The Revolving Facility generally requires payment of interest on a quarterly basis for ABR loans (commonly based on the Prime Rate or the Federal Funds Rate), and at the end of the applicable interest period for Eurocurrency loans bearing interest at LIBOR, the interest rate benchmark used to determine the variable rates paid on the Revolving Facility. All outstanding principal is due upon each maturity date. The Revolving Facility also require a mandatory prepayment of interest and principal upon certain triggering events (including, without limitation, the disposition of assets or the issuance of certain securities).

Borrowings under the Revolving Facility are subject to, among other things, a minimum borrowing/collateral base. The Revolving Facility have certain collateral requirements and/or covenants, including, but not limited to covenants related to: (a) limitations on the incurrence of additional indebtedness and liens, (b) limitations on certain investments, (c) limitations on certain restricted payments, (d) limitations on the creation or existence of agreements that prohibit liens on certain properties of the Company and its subsidiaries, and (e) compliance with certain financial maintenance standards including (i) minimum stockholders' equity, (ii) a ratio of total assets (less total liabilities not represented by senior securities) to the aggregate amount of senior securities representing indebtedness, of the Company and its consolidated subsidiaries, of not less than 2.00, (iii) minimum liquidity, (iv) minimum net worth, and (v) a consolidated interest coverage ratio. In addition to the financial maintenance standards, described in the preceding sentence, borrowings under the Revolving Facility (and the incurrence of certain other permitted debt) are subject to compliance with a borrowing base that applies different advance rates to different types of assets in the Company's portfolio.

The credit agreement governing the Revolving Facility also includes default provisions such as the failure to make timely payments under the Revolving Facility, the occurrence of a change in control, and the failure by the Company to materially perform under the operative agreements governing the Revolving Facility, which, if not complied with, could, at the option of the lenders under the Revolver Facility, accelerate repayment under the Revolving Facility, thereby materially and adversely affecting the Company's liquidity, financial condition and results of operations. The Company cannot be assured that it will be able to borrow funds under the Revolving Facility at any particular time or at all. The Company is currently in compliance with all financial covenants under the Revolving Facility.

As of March 31, 2020 and December 31, 2019, the carrying amount of the Company's outstanding Revolving Facility approximated fair value. The fair values of the Company's Revolving Facility are determined in accordance with ASC 820, which defines fair value in terms of the price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. The fair value of the Company's Revolving Facility is estimated based upon market interest rates and entities with similar credit risk. As of March 31, 2020 and December 31, 2019, the Revolving Facility would be deemed to be Level 3 of the fair value hierarchy.

Interest expense and related fees, excluding amortization of deferred financing costs, of \$901 and \$1,604 were incurred in connection with the Revolving Facility for the three months ended March 31, 2020 and 2019. Amortization of deferred financing costs of \$450, which included a one-time accelerated amortization of \$318 in connection with a reduction in the revolver commitment size, and \$496, which included a one-time accelerated amortization of \$144 in connection with a reduction in the revolver commitments size, respectively, were incurred in connection with the Revolving Facility for the three months ended March 31, 2020 and 2019. As of March 31, 2020, the Company had \$1,175 of deferred financing costs related to the Revolving Facility, which is presented as an asset. As of December 31, 2019, the Company had \$1,619 of deferred financing costs related to the Revolving Facility, which is presented as an asset.

Recent legislation has modified the 1940 Act by allowing a BDC to increase the maximum amount of leverage it may incur under the 1940 Act from an asset coverage ratio of 200% to an asset coverage ratio of 150%, if certain requirements are met. At the Company's Annual Meeting of Stockholders on June 14, 2019, stockholders approved a proposal to reduce the Company's asset coverage ratio to 150%. Such asset coverage ratio became effective on June 15, 2019. On April 14, 2020, the Company received lender consent to reduce its asset coverage ratio to 165%.

Notes

In December 2015 and November 2016, the Company completed a public offering of \$35,000 and \$25,000, respectively, in aggregate principal amount of 6.75% notes due 2022, or the 2022 Notes. The 2022 Notes mature on December 30, 2022, and may be redeemed in whole or in part at any time or from time to time at the Company's option on or after December 30, 2018. The 2022 Notes bear interest at a rate of 6.75% per year payable quarterly on March 30, June 30, September 30 and December 30, of each year, beginning March 30, 2016 and trade on the New York Stock Exchange under the trading symbol "TCRZ".

On October 5, 2018, the Company completed a public offering of \$50,000 in aggregate principal amount of 6.125% notes due 2023 ("2023 Notes"). The 2023 Notes mature on October 30, 2023, and may be redeemed in whole or in part at any time or from time to time at the Company's option on or after October 30, 2021. The 2023 Notes bear interest at a rate of 6.125% per year payable quarterly on March 30, June 30, September 30 and December 30, of each year, beginning December 30, 2018 and trade on the New York Stock Exchange under the trading symbol "TCRW". On October 16, 2018, the underwriters exercised their option to purchase an additional \$1,607 to cover overallocments.

The 2022 Notes and the 2023 Notes are collectively referred to as the Notes.

As of March 31, 2020, the carrying amount and fair value of the Notes was \$111,607 and \$91,934, respectively. As of December 31, 2019, the carrying amount and fair value of the Notes was \$111,607 and \$114,887, respectively. The fair value of the Notes are determined in accordance with ASC 820, which defines fair value in terms of the price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. The fair value of the Notes is based on the closing price of the security, which is a Level 2 input under ASC 820 due to the trading volume.

In connection with the issuance of the Notes, the Company incurred \$4,771 of fees and expenses. These deferred financing costs are presented as a reduction to the Notes payable balance and are being amortized using the effective yield method over the term of the Notes. For the three months ended March 31, 2020 and 2019, the Company amortized approximately \$201 and \$198 of deferred financing costs, respectively, which is reflected in amortization of deferred financing costs on the Consolidated Statements of Operations. As of March 31, 2020 and December 31, 2019, the Company had \$2,540 and \$2,742 remaining deferred financing costs on the Notes, which reduced the notes payable balance on the Consolidated Statements of Assets and Liabilities.

For the three months ended March 31, 2020 and 2019, the Company incurred interest expense on the Notes of \$1,803 and \$1,803, respectively.

The indenture and supplements thereto relating to the Notes contain certain covenants, including but not limited to (i) an inability to incur additional borrowings, including through the issuance of additional debt or the sale of additional debt securities unless the Company's asset coverage, meets the definition in the 1940 Act after such borrowing and (ii) if the Company is not subject to the reporting requirements under the Securities and Exchange Act of 1934 to file periodic reports with the SEC the Company will provide interim and consolidated financial information to the holders of the Notes and the trustee.

8. Contractual Obligations and Off-Balance Sheet Arrangements

From time to time, the Company, or the Advisor, may become party to legal proceedings in the ordinary course of business, including proceedings related to the enforcement of the Company's rights under contracts with its portfolio companies. Neither the Company, nor the Advisor, is currently subject to any material legal proceedings.

Unfunded commitments to provide funds to portfolio companies are not reflected on the Company's Consolidated Statements of Assets and Liabilities. The Company's unfunded commitments may be significant from time to time. These commitments will be subject to the same underwriting and ongoing portfolio maintenance as are the on-balance sheet financial instruments that the Company holds. Since these commitments may expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. The Company intends to use cash flow from normal and early principal repayments and proceeds from borrowings and offerings to fund these commitments.

As of March 31, 2020 and December 31, 2019, the Company has the following unfunded commitments to portfolio companies:

	As of

(1) The Company has sole discretion as to whether to lend under this revolving commitment.

(2) Includes amounts set aside for issued standby letters of credit.

The changes in fair value of the Company's unfunded commitments are considered to be immaterial as the yield determined at the time of underwriting is expected to be materially consistent with the yield upon funding.

9. Distributions

The Company has elected to be taxed as a RIC under Subchapter M of the Code. In order to maintain its status as a RIC, the Company is required to distribute annually to its stockholders at least 90% of its investment company taxable income. To avoid a 4% excise tax on undistributed earnings, the Company is required to distribute each calendar year the sum of (i) 98% of its ordinary income for such calendar year, (ii) 98.2% of its capital gain net income for the one-year period ending October 31 of that calendar year and (iii) any income recognized, but not distributed, in preceding years and on which the Company paid no federal income tax.

The Company's quarterly distributions, if any, will be determined by its board of directors. The Company intends to make distributions to stockholders on a quarterly basis of substantially all of its net investment income. Although the Company intends to make distributions of net realized capital gains, if any, at least annually, out of assets legally available for such distributions, the Company may in the future decide to retain such capital gains for investment. In addition, the extent and timing of special dividends, if any, will be determined by its board of directors and will largely be driven by portfolio specific events and tax considerations at the time.

In addition, the Company may be limited in its ability to make distributions due to the BDC asset coverage test for borrowings applicable to the Company as a BDC under the 1940 Act.

The following table summarizes the Company's recent distributions declared and paid or to be paid on all shares, including distributions reinvested, if any:

The Company may not be able to achieve operating results that will allow it to make distributions at a specific level or to increase the amount of these distributions from time to time. If the Company does not distribute a certain percentage of its income annually, it will suffer adverse tax consequences, including possible loss of its status as a regulated investment company. The Company cannot assure stockholders that they will receive any distributions at a particular level.

The Company maintains an "opt in" dividend reinvestment plan for common stockholders. As a result, unless stockholders specifically elect to have their dividends automatically reinvested in additional shares of common stock, stockholders will receive all such dividends in cash. There were no dividends reinvested for the three months ended March 31, 2020 and 2019.

Under the terms of the dividend reinvestment plan, dividends will primarily be paid in newly issued shares of common stock. However, the Company reserves the right to purchase shares in the open market in connection with the implementation of the plan. This feature of the plan means that, under certain circumstances, the Company may issue shares of our common stock at a price below net asset value per share, which could cause the Company's stockholders to experience dilution.

Distributions in excess of the Company's current and accumulated earnings and profits would generally be treated as a return of capital to the extent of a stockholder's adjusted tax basis in its shares. If a stockholder's tax basis is reduced to zero, the stockholder would generally treat any remaining distributions in excess of the Company's current and accumulated earnings and profits as a capital gain. The determination of the tax attributes of our distributions will be made annually as of the end of the fiscal year based upon the Company's taxable income for the full year and distributions paid for the full year. Therefore, a determination made on a quarterly basis may not be representative of the actual tax attributes of our distributions for a full year. If the Company had determined the tax attributes of its 2020 distributions as of March 31, 2020, 100% would be from ordinary income, 0% would be from capital gains and 0% would be a return of capital. Each year, a statement on Form 1099-DIV identifying the source of the distribution will be mailed to the Company's stockholders of record.

The Company may generate qualified interest income and short-term capital gains that may be exempt from United States withholding tax when distributed to foreign accounts. A RIC is permitted to designate distributions in the form of dividends that represent interest income from U.S. sources (commonly referred to as qualified interest income) and short-term capital gains as exempt from U.S. withholding tax when paid to non-U.S. stockholders with proper documentation.

11. Stock Repurchase Program

On March 2, 2018 the Company's board of directors authorized a \$20,000 stock repurchase program, which was extended and modified on March 5, 2019 to authorize the repurchase of outstanding shares in an aggregate amount of up to \$15,000. Effective March 14, 2019, the Company adopted a stock trading plan in accordance with Rule 10b5-1 of the Exchange Act. This plan was completed in November of 2019. On December 16, 2019, the Company's board of directors authorized a new \$10,000 stock repurchase program, which, unless extended by the Company's board of directors, will expire on December 16, 2020 and may be modified or terminated at any time for any reason without prior notice. Effective December 17, 2019, the Company adopted a stock trading plan in accordance with Rule 10b5-1 of the Exchange Act, which was terminated on March 10, 2020. The Company has provided its stockholders with notice of its ability to repurchase shares of its common stock in accordance with 1940 Act requirements. The Company retired all shares of common stock purchased in connection with the stock repurchase program prior to termination and plans to retire all shares of common stock that it purchases in the future in connection with the program. The following table summarizes share repurchases under the Company's stock repurchase program for the three months ended March 31, 2020 and 2019.

- (1) Effective March 14, 2019, the Company adopted a stock trading plan in accordance with Rule 10b5-1 of the Exchange Act. Under this plan ("10b5-1 Plan"), during the quarter ended March 31, 2019, the Company purchased 143 shares at an average cost of \$6.63, inclusive of commissions. All shares repurchased during the three months ended March 31, 2020 were under the 10b5-1 Plan adopted on December 17, 2019.

12. Subsequent Events

From April 1, 2020 through May 7, 2020, the Company made revolver and delayed draw fundings totaling \$3,145 with a combined weighted average yield of 6.7%.

On April 14, 2020, the Company entered into Amendment No. 5 to the Revolving Facility which, among other things, (i) permanently reduced the asset coverage test from a minimum of 200% to a minimum of 165%; (ii) permanently reduced the shareholder's equity and obligor's net worth test from a minimum of \$175,000 each to a minimum of \$140,000 each; (iii) permanently reduced the size of the lender's commitments under the Revolving Facility from \$150,000 to \$120,000; and (iv) permanently increased the interest rate by 25 basis points with a mechanism for an additional 25 basis points increase dependent on certain testing levels.

On March 3, 2020, the Company entered into a commitment letter (the "Commitment Letter") with First Eagle and the prior owners of the Advisor, including certain members of management of the Advisor (collectively, the "Investors"). Pursuant to the Commitment Letter, First Eagle and the Investors agreed to purchase from the Company, in aggregate, approximately \$30,000 of the Company's common stock in a publicly registered issuance on or before April 21, 2020 at the Company's net asset value ("NAV") per share, as approved in accordance with the Investment Company Act of 1940, as amended. On April 16, 2020, the Company's board of directors approved a NAV per share for April 15, 2020 of \$5.34. On April 17, 2020, the Company sold 5,617,978 shares at \$5.34 per share. After offering expenses, the Company received net proceeds of \$30,000 from the share issuance on April 21, 2020.

On May 4, 2020, the Company received proceeds of \$2,108 from the partial repayment of its first lien senior secured term loan in Holland Intermediate Acquisition Corp.

On May 5, 2020, the Company's board of directors declared a dividend of \$0.10 per share payable on June 30, 2020 to stockholders of record at the close of business on June 15, 2020.

- (8) Income includes certain fees relating to investment management services provided by the Company, including a base management fee, a performance fee and a portion of the closing fees on each investment transaction.
- (9) All debt investments are income-producing, unless otherwise noted. Equity and member interests are non-income-producing unless otherwise noted. The Company generally acquires its investments in private transactions exempt from registration under the Securities Act of 1933, as amended, or the Securities Act. Its investments are therefore generally subject to certain limitations on resale, and may be deemed to be "restricted securities" under the Securities Act.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The information contained in this section should be read in conjunction with the consolidated financial statements and notes thereto appearing elsewhere in this report. This discussion and analysis contains forward-looking statements that involve risks, uncertainties and assumptions. Our actual results could differ materially from those contained in or implied by the forward-looking statements. See "Cautionary Statement Regarding Forward-Looking Statements" following the Table of Contents for further information regarding forward-looking statements. Certain amounts and percentages in this discussion and analysis have been rounded for convenience of presentation. Unless otherwise noted, the figures in the following discussions are unaudited.

Overview

THL Credit, Inc., or we, us, our or the Company, was organized as a Delaware corporation on May 26, 2009 and initially funded on July 23, 2009. We commenced principal operations on April 21, 2010. On January 31, 2020, First Eagle Alternative Credit, LLC, formerly known as THL Credit Advisors LLC, the investment advisor (the "Advisor") to THL Credit, and First Eagle Investment Management, LLC ("First Eagle") completed its acquisition of the Advisor (the "Transaction") and, in conjunction with the completion of the Transaction, the Advisor's name was changed to First Eagle Alternative Credit, LLC. Our investment activities are managed by First Eagle Alternative Credit, LLC "FEAC" and supervised by our board of directors, a majority of whom are independent of FEAC and its affiliates. Our investment objective is to generate both current income and capital appreciation, primarily through investments in privately negotiated investments in debt and equity securities of middle market companies.

As of March 31, 2020, we, together with our credit-focused affiliates, collectively had \$22.5 billion of assets under management. This amount included our assets, assets of the managed funds and a separate account managed by us, and assets of the collateralized loan obligations (CLOs), separate accounts and various fund formats, as managed by the investment professionals of the Advisor or its consolidated subsidiary.

We are a direct lender to middle market companies and invest primarily in directly originated first lien senior secured loans, including unitranche investments. In certain instances, we also make second lien, subordinated, or mezzanine, debt investments, which may include an associated equity component such as warrants, preferred stock or other similar securities and direct equity investments. Our first lien senior secured loans may be structured as traditional first lien senior secured loans or as unitranche loans. Unitranche structures combine characteristics of traditional first lien senior secured as well as second lien and subordinated loans and our unitranche loans will expose us to the risks associated with second lien and subordinated loans to the extent we invest in the "last-out" tranche or subordinated tranche (or piece) of the unitranche loan. We may also provide advisory services to managed funds.

We are an externally managed, non-diversified, closed-end investment company that has elected to be regulated as a business development company, or BDC, under the Investment Company Act of 1940 Act, as amended, or the 1940 Act. As a BDC, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in "qualifying assets," including securities of private or thinly traded public U.S. companies, cash, cash equivalents, U.S. Government securities and high-quality debt investments that mature in one year or less.

As a BDC, we must not acquire any assets other than "qualifying assets" specified in the 1940 Act unless, at the time the acquisition is made, at least 70% of our total assets are qualifying assets (with certain limited exceptions). Qualifying assets include investments in "eligible portfolio companies." Under the relevant U.S. Securities and Exchange Commission, or SEC, rules the term "eligible portfolio company" includes all private companies, companies whose securities are not listed on a national securities exchange, and certain public companies that have listed their securities on a national securities exchange and have a market capitalization of less than \$250 million, in each case organized in the United States.

We are also registered as an investment adviser under the Investment Advisers Act of 1940, as amended.

Since April 2010, after we completed our initial public offering and commenced principal operations, through March 31, 2020, we have been responsible for making, on behalf of ourselves, our managed funds and separately managed account, over \$2.3 billion in aggregate commitments into 131 separate portfolio companies through a combination of both initial and follow-on investments. Since April 2010 through March 31, 2020, we, along with our managed funds and separately managed account, have received \$1.8 billion of gross proceeds from the realization of investments. The Company alone has received \$1.5 billion of gross proceeds from the realization of its investments during this same time period. As of March 31, 2020, our managed funds, THL Credit Greenway, LLC, or Greenway, and THL Credit Greenway II, LLC, or Greenway II, and its separately managed account, collectively Greenway II, have received \$190.8 million, or 127.2% of committed capital, and \$206.7 million, or 110.5% of the committed capital, respectively.

We have elected to be treated for tax purposes as a regulated investment company, or RIC, under Subchapter M of the Internal Revenue Code of 1986, as amended, or the Code. To qualify as a RIC, we must, among other things, meet certain source of income and asset diversification requirements. As a RIC, we generally will not have to pay corporate-level income taxes on any income we distribute to our stockholders.

COVID-19 Developments

During the first quarter of 2020, there was a global outbreak of COVID-19, which has spread to over 100 countries, including the United States, and has spread to every state in the United States. The World Health Organization has designated COVID-19 as a pandemic, and numerous countries, including the United States, have declared national emergencies with respect to COVID-19. The global impact of the outbreak has been rapidly evolving, and as cases of COVID-19 have continued to be identified in additional countries, many countries have reacted by instituting quarantines and restrictions on travel, closing financial markets and/or restricting trading, and limiting operation of non-essential businesses. Such actions are creating disruption in global supply chains and adversely impacting many industries. The outbreak could have a continued adverse impact on economic and market conditions and trigger a period of global economic slowdown.

We have enhanced our portfolio monitoring practices to include a potential threat assessment of the impact of COVID-19 on our portfolio companies, and we are maintaining frequent contact with our borrowers, sponsors and co-lenders. We have continued to fund our existing debt commitments. We expect the impacts of COVID-19 are likely to continue to some extent as the outbreak persists, and potentially even longer. The rapid development and fluidity of this situation precludes any prediction as to the ultimate adverse impact of COVID-19 on economic and market conditions, and, as a result, present material uncertainty and risk with respect to us and the performance of our portfolio companies. The full extent of the impact and effects of COVID-19 will depend on future developments, including, among other factors, the duration and spread of the outbreak, along with related travel advisories, quarantines and restrictions, the recovery time of the disrupted supply chains and industries, the impact of labor market interruptions, the impact of government interventions, and uncertainty with respect to the duration of a global economic slowdown. Depending on the duration and extent of the disruptions to the operations of our portfolio companies, we expect that some of our portfolio companies may curtail business operations, reduce employee workforces or defer capital expenditures if subjected to prolonged financial distress, which could impair their business on a permanent basis. These impairments could possibly lead to defaults on their financial obligations to us and other capital providers. These developments may result in further losses and/or restructurings that may lead to decreased investment income.

Our net asset value as of March 31, 2020 was significantly reduced compared to our net asset value as of December 31, 2019, primarily as a result of the impact of COVID-19. The decrease in net asset value as of March 31, 2020 primarily resulted from an increase in the aggregate unrealized depreciation of our investment portfolio resulting from decreases in the fair value of some of our portfolio company investments primarily due to the immediate adverse economic effects of COVID-19 and associated uncertainties of its long-term impact, as well as the re-pricing of credit risk and increased volatility in the broadly syndicated credit market.

The financial results for the three months ended March 31, 2020 do not reflect the full anticipated impact of COVID-19 on our operations as many of the preventative measures utilized in the U.S., including quarantines and travel restrictions, were generally instituted in the second half of March 2020.

We will continue to monitor the rapidly evolving situation in relation to COVID-19, and the resulting impacts on our portfolio companies' operations. Given the dynamic nature, coupled with the significant uncertainties of the situation, we cannot reasonably estimate the impact of COVID-19 on our financial condition, results of operations or cash flows in the future. However, to the extent our portfolio companies are adversely impacted by the effects of COVID-19 and the current financial, economic and capital markets environment, and future developments in these and other areas, it may have a material adverse impact on our performance, financial condition, results of operations and ability to pay distributions.

Portfolio Composition and Investment Activity

Portfolio Composition

As of March 31, 2020, we had \$316.8 million of portfolio investments (at fair value), which represents a \$67.3 million, or 17.5% decrease from the \$384.1 million (at fair value) as of December 31, 2019. Our portfolio consisted of 46 investments, including Greenway, and Greenway II, as of March 31, 2020, compared to 52 portfolio investments, including Greenway and Greenway II, as of December 31, 2019. As of March 31, 2020, we had \$98.6 million of controlled portfolio investments (at fair value) in four portfolio companies, which represents a \$43.3 million, or 30.5% decrease from \$141.9 million (at fair value) as of December 31, 2019 in four portfolio companies. The decrease in controlled portfolio companies was largely the result of a decrease in fair value of OEM Group, LLC and Logan JV in addition to a return of capital distribution from Logan JV. Our average controlling equity position at March 31, 2020 was approximately \$44.5 and \$24.6 at cost and fair value, respectively. Our investment in the Logan JV represented 14.6% and 21.7% of our portfolio investments at fair value as of March 31, 2020 and December 31, 2019, respectively. We are currently limiting new investments in new portfolio companies to 2.5% of our investment portfolio based upon the most recent fair market value.

The following table shows certain portfolio highlights based on cost and fair value (in millions).

At March 31, 2020 and at December 31, 2019, based upon fair value, 100.0% of our debt investments bore interest based on floating rates, which may be subject to interest rate floors, such as LIBOR.

The following table shows the weighted average yield by investment category at their current cost.

Description:	As of	
	March 31, 2020	December 31, 2019
First lien senior secured debt (1)	5.6%	8.0%
Second lien debt	12.3%	12.8%
Income-producing equity securities (2)	0.0%	0.0%
Debt and income-producing investments (1)(3)	5.8%	8.2%
Logan JV (4)	10.1%	10.5%
All investments including Logan JV (1)(4)	6.8%	8.7%

(1) Includes all loans on non-accrual status.

(2) Includes income from debt-like equity securities where there is a stated rate and amounts are due on a fixed payment schedule.

(3) Includes yields on controlled investments, but excludes the yield on the Logan JV.

(4) As of March 31, 2020 and December 31, 2019, the dividend declared and earned of \$9.6 million and \$9.8 million for the twelve months ended March 31, 2020 and December 31, 2019, respectively, represented a yield to us of 10.1% and 10.5%, respectively, based on average capital invested. We expect the dividend yield to fluctuate as a result of the timing of additional capital invested, the changes in asset yields in the underlying portfolio and the overall performance of the Logan JV investment portfolio.

The weighted average yield of our debt investments is not the same as a return on investment for our stockholders but, rather, relates to a portion of our investment portfolio and is calculated before the payment of our fees and expenses. The weighted average yield was computed using the effective interest rates as of March 31, 2020, including accretion of original issue discount and loan origination fees. This weighted average yield reflects the impact of loans on non-accrual status. There can be no assurance that the weighted average yield will remain at its current level. As of March 31, 2020 and December 31, 2019, 1.3% and 1.7%, respectively, of our investment portfolio at fair value was comprised of non-income producing equity and warrant investments. We intend to continue to reduce our non-income producing investments in 2020 and beyond. No assurance can be given that we will be successful in achieving this target.

As of March 31, 2020 and December 31, 2019, portfolio investments, in which we have debt investments, had a median adjusted earnings before interest, taxes, depreciation and amortization, or EBITDA, of approximately \$17.8 million and \$16.0 million, respectively, based on the latest available financial information provided by the portfolio companies for each of these periods. As of March 31, 2020 and December 31, 2019, our median attachment point in the capital structure of our debt investments in portfolio companies is approximately 4.8 times and 4.6 times the portfolio company's EBITDA, respectively, based on our latest available financial information for each of these periods.

We expect the percentage of our portfolio investments in unsecured investments to decrease significantly over time as we work through restructurings, which may include providing additional liquidity through revolving loans, and ultimately exit our unsecured investments. However, these portfolio investments may require follow-on capital as we work through restructurings, which will increase our exposure to these investments. Going forward we expect unsecured investments we make, if any, would only be in first lien senior secured investments. As of March 31, 2020, our portfolio of unsecured investments included two investments, excluding our investment in Wheels Up Partners, LLC, which is a non-income producing equity security. One is performing at or above our expectations and has an Investment Score of 1. The other unsecured investment had an Investment Score of 5. As of December 31, 2019, our portfolio of unsecured debt investments included four investments, excluding our investment in Wheels Up Partners, LLC, which is a non-income producing equity security. Three were performing at or above our expectations and had an Investment Score of 1 or 2. The other unsecured investment had an Investment Score of 3.

As of March 31, 2020, we have closed portfolio investments with 73 different sponsors since inception. As of December 31, 2019, we had closed portfolio investments with 71 different sponsors since inception.

- (1) All investments are categorized as Level 3 in the fair value hierarchy, except for: 1) certain broadly syndicated loans which are categorized as Level 2 in the fair value hierarchy and noted as such on the Consolidated Schedule of Investments as of December 31, 2019 and 2) investments in funds and the Logan JV, which are excluded from the fair value hierarchy in accordance with ASU 2015-07; these assets are valued at net asset value.

We expect the percent of our core assets, which we define as first lien senior secured loans and the Logan JV, to continue to increase as a percent of total investments as we exit non-qualifying BDC assets as defined under the 1940 Act and our controlled equity investments, through sales or repayments, and redeploy these proceeds. We intend to continue our efforts to reposition the portfolio towards these core assets, which we believe will reduce our exposure to portfolio company risks and potential changes in interest rates. Weighted average yield, including all new income-producing investments	6.0%	11.9%

(1) Includes follow-on investments in controlled investments. Refer to Schedule 12-14 for additional detail.

For the three months ended March 31, 2020 and 2019, we had prepayments and sales of our investments, including any prepayment premiums, totaling \$38.3 million and \$25.5 million, respectively. Please refer to “Results of Operations- Net Realized Gains and Losses on Investments, net of income tax provision” for additional details surrounding certain investments that were sold.

The following are proceeds received from notable prepayments, sales and other activity related to our investments (in millions):

For the three months ended March 31, 2020

- Proceeds of \$23.3 million received from the sale of eight senior secured broadly syndicated investments made in December 2019 resulting in a \$0.1 million net realized gain, and
- Sale of a first lien senior secured term loan in MB Medical Operations LLC with proceeds received of \$2.6 million, resulting in a nominal gain.

For the three months ended March 31, 2019

- Sale of a first lien senior secured term loan in Alex Toys, LLC. with proceeds received of \$7.7 million, and
- Sale of a first lien senior secured term loan in Home Partners of America, Inc. with proceeds received of \$7.7 million.

Our level of investment activity can vary substantially from period to period depending on many factors, including the amount of debt and equity capital available to middle market companies, the level of merger and acquisition activity, the general economic environment and the competitive environment for the types of investments we make. The frequency and volume of any prepayments may fluctuate significantly from period to period. The future adverse impact of COVID-19 on the broader markets in which we invest cannot currently be accurately predicted and future investment activity of the Company will be subject to these effects and related uncertainties.

Aggregate Cash Flow Realized Gross Internal Rate of Return

Since April 2010, after we completed our initial public offering and commenced principal operations, through March 31, 2020, our fully exited investments have resulted in an aggregate cash flow realized gross internal rate of return to us of 11.2% (based on cash invested of \$1.5 billion and total proceeds from these exited investments of \$1.9 billion). 80.2% of these exited investments resulted in an aggregate cash flow realized gross internal rate of return to us of 10% or greater. Internal rate of return, or IRR, is a measure of our discounted cash flows (inflows and outflows). Specifically, IRR is the discount rate at which the net present value of all cash flows is equal to zero. That is, IRR is the discount rate at which the present value of total cash invested in our investments is equal to the present value of all realized returns from the investments. Our IRR calculations are unaudited.

Investment Risk

The value of our investments will generally fluctuate with, among other things, changes in prevailing interest rates, federal tax rates, counterparty risk, general economic conditions, the condition of certain financial markets, developments or trends in any particular industry and the financial condition of the issuer. During periods of limited liquidity and higher price volatility, our ability to dispose of investments at a price and time that we deem advantageous may be impaired.

Lower-quality debt securities involve greater risk of default or price changes due to changes in the credit quality of the issuer. The value of lower-quality debt securities often fluctuates in response to company, political, or economic developments and can decline significantly over short periods of time or during periods of general or regional economic difficulty. Lower-quality debt securities can be thinly traded or have restrictions on resale, making them difficult to sell at an acceptable price. The default rate for lower-quality debt securities is likely to be higher during economic recessions or periods of high interest rates.

THL Credit Logan JV LLC

On December 3, 2014, we entered into an agreement with Perspecta Trident LLC, an affiliate of Perspecta Trust LLC, or Perspecta, to create THL Credit Logan JV LLC, or Logan JV, a joint venture, which invests primarily in senior secured first lien term loans. All Logan JV investment decisions must be unanimously approved by the Logan JV investment committee consisting of one representative from each of us and Perspecta.

We have determined that Logan JV is an investment company under ASC 946, however, in accordance with such guidance, we will generally not consolidate our investment in a company other than a substantially owned investment company subsidiary or a controlled operating company whose business consists of providing services to us. Accordingly, we do not consolidate our non-controlling interest in Logan JV.

Logan JV is capitalized with equity contributions which are generally called from its members, on a pro-rata basis based on their equity commitments, as transactions are completed. Any decision by the Logan JV to call down on capital commitments requires the explicit authorization of us, coupled with that of Perspecta, and we may withhold such authorization for any reason in our sole discretion.

As of March 31, 2020 and December 31, 2019, Logan JV had the following commitments, contributions and unfunded commitments from its members.

Logan JV has a senior credit facility, or the Logan JV Credit Facility, with Deutsche Bank AG and other banks. As of March 31, 2019 and December 31, 2019, the Logan JV Credit Facility had \$275.0 million of commitments subject to leverage and borrowing base restrictions with an interest rate of three month LIBOR (with no LIBOR floor) plus 2.20%. The final maturity date of the Logan JV Credit Facility is January 12, 2023 with the revolving loan period ending on January 12, 2021. As of March 31, 2020 and December 31, 2019, Logan JV had \$227.1 million and \$236.1 million of outstanding borrowings under the credit facility, respectively. At March 31, 2020, the effective interest rate on the Logan JV Credit Facility was 4.09% per annum.

As of March 31, 2020 and December 31, 2019, Logan JV had total investments at fair value of \$278.9 million and \$332.2 million, respectively. As of March 31, 2020 and December 31, 2019, Logan JV's portfolio was comprised of senior secured first lien and second lien loans to 128 and 131 different borrowers, respectively. As of March 31, 2020, there is one loan on non-accrual status with an amortized cost basis and fair value of \$2.4 million and \$1.2 million, respectively. As of December 31, 2019, there were three loans from two issuers on non-accrual status with an amortized cost and fair value of \$5.3 million and \$2.2 million, respectively. As of March 31, 2020 and December 31, 2019, Logan JV had unfunded commitments to fund revolver and delayed draw loans to its portfolio companies totaling \$2.9 million and \$3.9 million, respectively. The portfolio companies in Logan JV are in industries similar to those in which we may invest directly.

Below is a summary of Logan JV's portfolio, followed by a listing of the individual loans in Logan JV's portfolio as of March 31, 2020 and December 31, 2019 (dollar amounts in thousands):

	As of March 31, 2020	As of December 31, 2019
First lien secured debt, at par	\$ 322,035	\$ 338,439
Second lien debt, at par	7,811	8,529
Total debt investments, at par	<u>\$ 329,846</u>	<u>\$ 346,968</u>
Weighted average yield on first lien secured loans (1)	6.4%	6.6%
Weighted average yield on second lien loans (1)	9.5%	9.7%
Weighted average yield on all loans (1)	6.5%	6.7%
Number of borrowers in Logan JV	128	131
Largest loan to a single borrower (2)	\$ 5,000	\$ 5,000
Total of five largest loans to borrowers (2)	\$ 24,812	\$ 24,906

(1) Weighted average yield at their current cost.

(2) At current principal amount.

The weighted average yield of Logan JV's debt investments is not the same as a return on Logan JV investment for our stockholders but, rather, relates to a portion of our investment portfolio and is calculated before the payment of our expenses. The weighted average yield was computed using the effective interest rates as of March 31, 2020 and December 31, 2019, respectively, but excluding the effective rates on investments on non-accrual status, if any. There can be no assurance that the weighted average yield will remain at its current level.

For the three months ended March 31, 2020 and 2019, our share of income from distributions declared related to our Logan JV LLC equity interest was \$2.3 million and \$2.6 million, respectively, which amounts are included in dividend income from controlled investments in the Consolidated Statement of Operations and reduction of cost basis on the Consolidated Statement of Assets and Liabilities. As of March 31, 2020 and December 31, 2019, \$2.6 million and \$2.6 million, respectively, of income related to the Logan JV was included in interest, dividends and fees receivable on the Consolidated Statements of Assets and Liabilities. As of March 31, 2020, the distributions declared and earned of \$9.6 million for the twelve months ended March 31, 2020, represented a dividend yield to the Company of 10.1% based upon average capital invested. As of December 31, 2019, distributions declared and earned of \$9.8 million for the twelve months ended December 31, 2019, represented a dividend yield to the Company of 10.5% based upon average capital invested. As of March 31, 2020 and December 31, 2019, \$0.3 million and \$0.3 million, respectively, of return of capital associated with distributions declared was included in the Distributions receivable on our Consolidated Statements of Assets and Liabilities. We expect the dividend yield to fluctuate as a result of the timing of additional capital invested, the changes in asset yields in the underlying portfolio and the overall performance of the Logan JV investment portfolio.

Asset Quality

We employ the use of board observation and information rights, regular dialogue with company management and sponsors, and detailed internally generated monitoring reports to actively monitor performance. Additionally, THL Credit has developed a monitoring template that promotes compliance with these standards and that is used as a tool to assess investment performance relative to plan.

As part of the monitoring process, the Advisor assesses the risk profile of each of our investments and assigns each portfolio investment a score of a 1, 2, 3, 4 or 5

The investment performance scores are as follows:

- 1 – The portfolio investment is performing above our underwriting expectations.
- 2 – The portfolio investment is performing as expected at the time of underwriting. All new investments are initially scored a 2.
- 3 – The portfolio investment is operating below our underwriting expectations and requires closer monitoring. The company may be out of compliance with financial covenants, however, principal or interest payments are generally not past due.
- 4 – The portfolio investment is performing materially below our underwriting expectations and returns on our investment are likely to be impaired. Principal or interest payments may be past due, however, full recovery of principal and interest payments are expected.
- 5 – The portfolio investment is performing substantially below expectations and the risk of the investment has increased substantially. The company is in payment default and the principal and interest payments are not expected to be repaid in full.

For purposes of clarity, underwriting as referenced herein may be redetermined after the initial investment as a result of a transformative credit event or other material event whereby such initial underwriting is deemed by the Advisor to be no longer appropriate for the purpose of assessing investment performance relative to plan. For any investment receiving a score of a 3 or lower the Advisor will increase their level of focus and prepare regular updates for the investment committee summarizing current operating results, material impending events and recommended actions.

The Advisor monitors and, when appropriate, changes the investment scores assigned to each investment in our portfolio. In connection with our investment valuation process, the Advisor and board of directors review these investment scores on a quarterly basis. Our average portfolio company investment score was 2.30 and 2.17 at March 31, 2020 and December 31, 2019, respectively. The following is a distribution of the investment scores of our portfolio companies at March 31, 2020 and December 31, 2019 (in millions):

Loans are placed on non-accrual status when principal or interest payments are past due 30 days or more and/or when it is no longer probable that principal or interest will be collected. However, we may make exceptions to this policy if the loan has sufficient collateral value and is in the process of collection. As of March 31, 2020, we had loans on non-accrual status with an amortized cost basis of \$93.6 million and fair value of \$45.7 million. As of December 31, 2019, we had loans on non-accrual status with an amortized cost basis of \$36.0 million and fair value of \$15.1 million. For additional information, please refer to the Consolidated Schedules of Investments as of March 31, 2020 and December 31, 2019. We record the reversal of any previously accrued income against the same income category reflected in the Consolidated Statement of Operations.

Results of Operations

Comparison of the three months ended March 31, 2020 and 2019

Investment Income

We generate revenues primarily in the form of interest on the debt and other income-producing securities we hold. Other income-producing securities include investments in funds. Our investments in fixed income instruments generally have an expected maturity of five to seven years, and typically bear interest at a fixed or floating rate. Interest on our debt securities is generally payable quarterly. Payments of principal of our debt investments may be amortized over the stated term of the investment, deferred for several years or due entirely at maturity. In some cases, our debt instruments and preferred stock investments may defer payments of dividends or pay interest in-kind, or PIK. Any outstanding principal amount of our debt securities and any accrued but unpaid interest will generally become due at the maturity date. The level of interest income we receive is directly related to the balance of interest-bearing investments multiplied by the weighted average yield of our investments. In addition to interest income, we may receive dividends and other distributions related to our equity investments. We may also generate revenue in the form of fees from the management of Greenway and Greenway II, prepayment premiums, commitment, loan origination, structuring or due diligence fees, exit fees, amendment fees, portfolio company administration fees, fees for providing significant managerial assistance and consulting fees. These fees may or may not be recurring in nature as part of our normal business operations. We will disclose below what amounts, if any, are material non-recurring fees that have been recorded as income during each respective period.

The following shows the breakdown of investment income for the three months ended March 31, 2020 and 2019 (in millions):

	For the three months ended March	
	2020	2019
Interest income on debt securities		
Cash interest	\$ 4.5	\$ 8.7
PIK interest	—	0.7
Net accretion of discounts and other fees	0.2	0.3
Total interest on debt securities	4.7	9.7
Dividend income ⁽¹⁾	3.0	3.7
Interest income on other income-producing securities ⁽¹⁾	—	0.1
Fees related to non-controlled, affiliated investments	0.1	0.2
Other income	0.1	0.5
Total investment income	\$ 7.9	\$ 14.2

⁽¹⁾ Includes dividend income from preferred and common equity interests in C&K Market, Inc., Copperweld Bimetallics LLC and Logan JV.

The decrease in investment income between the three month periods was primarily due to the contraction in the overall investment portfolio since March 31, 2019, the decline in LIBOR, and the additional loans put on non-accrual status during the three months ended March 31, 2020, which led to lower interest income. Additionally, dividend income decreased due to the sale of Copperweld Bimetallics LLC in 2019.

The following shows a rollforward of PIK income activity for the three months ended March 31, 2020 and 2019 (in millions):

	ended	Three months	
		2020	2019
Accumulated PIK balance, beginning of period	\$ 3.6	\$ 3.9	
PIK income capitalized/receivable	—	0.7	
PIK reduction due to sale	—	(0.1)	
Accumulated PIK balance, end of period	\$ 3.6	\$ 4.5	

In certain investment transactions, we may provide advisory services. For services that are separately identifiable and external evidence exists to substantiate fair value, income is recognized as earned. We earned no income from advisory services related to portfolio companies for the three months ended March 31, 2020 and 2019.

Expenses

Our primary operating expenses include the payment of base management fees, borrowing expenses related to our credit facilities and Notes, and expenses reimbursable under the investment management agreement and the allocable portion of overhead under the administration and investment management agreements (“administrator expenses”). The base management fee compensates the Advisor for work in identifying, evaluating, negotiating, closing and monitoring our investments. Our investment management agreement and administration agreement provides that we will reimburse the Advisor for costs and expenses incurred by the Advisor for facilities, office equipment and utilities allocable to the performance by the Advisor of its duties under the agreements, as well as any costs and expenses incurred by the Advisor relating to any administrative or operating services provided by the Advisor to us. We bear all other costs and expenses of our operations and transactions.

The following shows the breakdown of expenses for the three months ended March 31, 2020 and 2019 (in millions):

	For the three months ended March	
	31,	
	2020	2019
Expenses		
Interest and fees on Borrowings (a)	\$ 3.4	\$ 4.1
Base management fees	1.0	1.9
Incentive fees	(0.4)	—
Other expenses	0.9	1.0
Administrator expenses	0.3	0.4
Total expenses	<u>5.2</u>	<u>7.4</u>
Income tax provision, excise and other taxes (b)	0.1	0.1
Total expenses after taxes	<u>\$ 5.3</u>	<u>\$ 7.5</u>

(a) Interest, fees and amortization of deferred financing costs related to our Revolving Facility and Notes.

(b) Amounts include the income taxes related to earnings by our consolidated corporate subsidiaries established to hold equity or equity-like investments in portfolio companies organized as pass-through entities and excise taxes related to our undistributed earnings and other taxes.

The decrease in expenses during the three month periods was primarily due to lower base management fees as a result of portfolio contraction and a reduction in the annual base management fee rate from 1.5% to 1.0%. We also incurred lower interest and fees on our Credit Facility due to a reduction in borrowings outstanding, lower unused fees resulting from a reduction in commitments from \$190.0 million to \$150.0 effective March 13, 2020 and a decrease in LIBOR. Refer to Note 7, Borrowings, of the Consolidated Financial Statements for further detail. Additionally, we reversed \$0.4 million of incentive fees during the three months ends March 31, 2020 as an adjustment to previously deferred incentive fees, which further contributed to the decrease in total expenses during the three month periods.

We expect certain of our operating expenses, including administrator expenses, professional fees and other general and administrative expenses to decline as a percentage of our total assets during periods of growth and increase as a percentage of our total assets during periods of asset declines.

Net Investment Income

Net investment income was \$2.7 million, or \$0.09 per common share based on a weighted average of 29,813,268 common shares outstanding for the three months ended March 31, 2020, as compared to \$6.7 million, or \$0.21 per common share based on a weighted average of 32,289,420 common shares outstanding for the three months ended March 31, 2019.

The decrease in net investment income between the three month periods is primarily attributable a decrease in interest on debt and other income-producing investments due to portfolio contraction and additional loans placed on non-accrual status offset by lower base management fees, incentive fees, and interest and fees on our Credit Facility.

Net Realized Gains and Losses on Investments, net of income tax provision

We measure realized gains or losses by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment, using the specific identification method, without regard to unrealized appreciation or depreciation previously recognized.

The following shows the breakdown of net realized gains and losses for the three months ended March 31, 2020 and 2019 (in millions):

	For the three months ended March 31,	
	2020	2019
Aerogroup International Inc. (1)	\$ 0.1	\$ (0.8)
Alex Toys, LLC (2)	—	(1.5)
Charming Charlie LLC (3)	(1.5)	—
Copperweld Bimetallics, LLC (4)	(0.3)	—
Tri Starr Management Services, Inc. (5)	—	0.4
Other	0.1	(0.1)
Net realized losses	<u>\$ (1.6)</u>	<u>\$ (2.0)</u>

- (1) In March 2018, Aerogroup International Inc. was sold through bankruptcy proceedings and we received \$2.5 million in proceeds with an additional \$6.3 million reflected as escrow and other receivables. The escrow and other receivable had been adjusted for the three months ended March 31, 2019 to reflect future collectability. Subsequently, we collected the outstanding escrow proceeds in cash through June 2019 realizing additional losses to reflect amounts collected and associated expenses. In 2020, we reversed a portion of the realized losses recorded in 2019 to true up expected accrued expenses related to the bankruptcy proceedings.
- (2) On January 11, 2019, we sold our first lien senior secured term loan in Alex Toys, LLC for total proceeds of \$7.7 million. The realized loss of \$1.5 million was offset by a corresponding change in unrealized appreciation in the same amount.
- (3) On July 11, 2019, Charming Charlie LLC filed for Chapter 11 bankruptcy protection in Delaware with plans to liquidate the company and any of its remaining assets. In connection with the liquidation, we removed Charming Charlie from Investments, at fair value and reflected the expected liquidation proceeds as Escrow and other receivables on the Consolidated Statements of Assets and Liabilities. Charming Charlie has ceased its operations and has been actively liquidating its assets. In 2020, we recorded a realized loss to reflect the collectability of the remaining receivable balance, which is expected to be collected in the near term.
- (4) On September 28, 2019, we were repaid on our second lien term loan in connection with the sale of our controlling common and preferred equity positions in Copperweld Bimetallics LLC with proceeds received of \$32.5 million with an additional \$1.7 million in escrow proceeds that were reflected as escrow and other receivables. Subsequently, we collected \$0.9 million in escrow proceeds in cash through March 2020 and realized additional losses to reflect the collectability of the remaining escrow and other receivables balance.
- (5) On February 5, 2019, we received an additional \$0.4 million in cash proceeds related to the final purchase price true-up in connection with the sale of our investment in Tri-Starr Management Services, Inc. in October 2018.

Net Change in Unrealized Appreciation (Depreciation) of Investments

Net change in unrealized appreciation (depreciation) primarily reflects the change in portfolio investment values during the reporting period, including the reversal of previously recorded appreciation or depreciation when gains or losses are realized.

The following shows the breakdown in the changes in unrealized appreciation of investments for the three months ended March 31, 2020 and 2019 (in millions):

	Three months ended March 31, 2020	
	2020	2019
Gross unrealized appreciation on investments	\$ 3.3	\$ 9.6
Gross unrealized depreciation on investments	(70.6)	(15.2)
Reversal of prior period net unrealized (appreciation) depreciation upon a realization	(0.4)	1.3
Total	<u>\$ (67.7)</u>	<u>\$ (4.3)</u>

During the three months ended March 31, 2020, the largest reductions in value for the investments still held as of the reporting date were related to OEM Group, LLC (an investment where we hold a controlling interest), Holland Intermediate Acquisition Corp., Allied Wireline Services, LLC and a market driven reduction of Logan JV, an investment where we also hold a controlling interest. Many of our portfolio companies operate in industries that are materially impacted by COVID-19, including but not limited to healthcare, travel, entertainment and hospitality. Many of these companies are facing operational and financial hardships resulting from the spread of COVID-19 and related governmental measures, such as the closure of stores, restrictions on travel, quarantines or

stay-at-home orders. Many of our portfolio companies are facing increased credit and liquidity risk due to volatility in financial markets, reduced revenue streams, and limited or higher cost of access to preferred sources of funding. The disruptions caused by COVID-19 and the restrictions put in place have contributed to the write-down in the value of our portfolio as of March 31, 2020. If the disruptions caused by COVID-19 continue and the restrictions put in place are not lifted, the businesses of these portfolio companies could suffer materially or become insolvent, which would further decrease the value of our investments.

During 2019, the largest reduction in value was in our investment in LAI International Inc., which was placed on non-accrual status with an investment score of “5” during the quarter ended March 31, 2019. This reduction was partially offset by an increase in the value of our investment in Copperweld Bimetallics LLC, where we held a controlling equity interest.

Provision for Taxes on Unrealized Gains on Investments

Certain consolidated subsidiaries of ours are subject to U.S. federal and state income taxes. These taxable entities are not consolidated with the Company for income tax purposes and may generate income tax liabilities or assets from temporary differences in the recognition of items for financial reporting and income tax purposes at the subsidiaries. For the three months ended March 31, 2020 and 2019, we recognized a benefit for tax on unrealized gains on investments of \$0.5 million and \$0.1 million, respectively, for consolidated subsidiaries. As of March 31, 2020 and December 31, 2019, \$1.5 million and \$1.9 million, respectively, were included in deferred tax liability on the Consolidated Statements of Assets and Liabilities relating to deferred tax on unrealized gain on investments. The change in provision for tax on unrealized gains on investments relates primarily to changes to the unrealized appreciation (depreciation) of the investments held in these taxable consolidated subsidiaries, other temporary differences and a change in the prior year estimates received from certain portfolio companies.

Net (Decrease) Increase in Net Assets Resulting from Operations

Net (decrease) increase in net assets resulting from operations totaled \$(66.2) million, or \$(2.22) per common share based on a weighted average of 29,813,268 common shares for the three months ended March 31, 2020, as compared to \$0.2 million, or \$0.01 per common share based on a weighted average of 32,289,420 common shares for the three months ended March 31, 2019, respectively.

The changes in net assets from operations between the three months ended March 31, 2020 and 2019 is due primarily to lower interest income as a result of portfolio contraction and additional loans placed on non-accrual status, and the increase of the unrealized losses in the portfolio (as described above) and the related tax impact.

Financial condition, liquidity and capital resources

Cash Flows from Operating and Financing Activities

Our liquidity and capital resources are derived from our borrowings, equity raises and cash flows from operations, including investment sales and repayments, and investment income earned. Our primary use of funds from operations includes investments in portfolio companies, payment of distributions to the holders of our common stock and payments of fees and other operating expenses we incur. We have used, and expect to continue to use, our borrowings and the proceeds from the turnover in our portfolio and from public and private offerings of securities to finance our investment objectives, to the extent permitted by the 1940 Act. We are continuously and critically reviewing our liquidity and anticipated capital requirements in light of the uncertainty created by the COVID-19 global pandemic. We expect that the significant disruption in business activity and the financial markets will impact several sources of our liquidity. For example, limited opportunities to successfully exit investments due to, among other things, lower valuations, a lack of potential buyers with the financial resources to pursue acquisitions, and our portfolio companies limited ability to repay their obligations to us, will impact cash flows from operating activities. For more information on the potential impact of the COVID-19 pandemic on our business, see “Item 1A. Risk Factors – Major public health issues, and specifically the novel coronavirus COVID-19, could have an adverse impact on our financial condition and results of operations and other aspects of our business.”

We may raise additional equity or debt capital through both registered offerings off our shelf registration statement and private offerings of securities, by securitizing a portion of our investments or borrowings from credit facilities. To the extent we determine to raise additional equity through an offering of our common stock at a price below net asset value, existing investors will experience dilution.

We borrowed \$15.5 million under our Revolving Facility for the three months ended March 31, 2020 and made no repayments on our Revolving Facility. We borrowed \$18.0 million under our Revolving Facility for the three months ended March 31, 2019 and repaid \$8.8 million on our Revolving Facility from prepayments and sales and investment income.

Our operating activities provided (used) cash of \$9.1 million and \$(5.2) million for the three months ended March 31, 2020 and 2019, respectively, primarily in connection with the purchase and sales of portfolio investments. For the three months ended March 31, 2020, our financing activities included net borrowings of \$(15.5) million on our Revolving Facility and used \$6.2 million for distributions to stockholders and \$2.2 million to repurchase common stock. For the three months ended March 31, 2019, our financing activities included net borrowings of \$9.3 million on our Revolving Facility and used \$6.8 million for distributions to stockholders, \$1.3 million to repurchase common stock and \$0.3 million for the payment of financing costs.

As of March 31, 2020 and December 31, 2019, we had cash of \$22.1 million and \$5.9 million, respectively. We had no cash equivalents as of March 31, 2020 and December 31, 2019.

We believe cash balances, our Revolving Facility capacity and any proceeds generated from the sale or pay down of investments provides us with the liquidity necessary to fulfill our pipeline in the near future.

Borrowings

The following shows a summary of our Borrowings as of March 31, 2020 and December 31, 2019 (in millions):

- (1) As of March 31, 2020, excludes deferred financing costs of \$1.0 million for the 2022 Notes and \$1.6 for the 2023 Notes, respectively, presented as a reduction to the respective balances outstanding in the Consolidated Statements of Assets and Liabilities.
- (2) Represents the weighted average borrowings outstanding for the three months ended March 31, 2020.
- (3) As of December 31, 2019, excludes deferred financing costs of \$1.1 million for the 2022 Notes and \$1.7 million for the 2023 Notes presented as a reduction to the respective balances outstanding in the Consolidated Statements of Assets and Liabilities.
- (4) Represents the weighted average borrowings outstanding for the year ended December 31, 2019.
- (5) As part of Amendment No.4 to Second Amended and Restated Senior Secured Revolving Credit Agreement dated March 13, 2020, the revolver commitments have been reduced to \$150.0 million from \$190.0 million.
- (6) Represents the weighted average interest rate as of March 31, 2020 and December 31, 2019.

Credit Facility

On December 15, 2017, we entered into an amendment, or the Revolving Amendment, to our existing revolving credit agreement, or Revolving Facility. The Revolving Amendment revised the Revolving Facility dated August 19, 2015 to, among other things, extend the maturity date from August 2019 to December 2022 (with a one year term out period beginning in December 2021). The one year term out period is the one year anniversary between the revolver termination date, or the end of the availability period, and the maturity date. During this time, we are required to make mandatory prepayments on its loans from the proceeds we receive from the sale of assets, extraordinary receipts, returns of capital or the issuances of equity or debt. The Revolving Amendment also reduced the size of the revolver commitments from \$303.5 million to \$275.0 million and terminated the \$75.0 million term loan facility. On March 26, 2019, we entered into Amendment No. 1 which amended the Revolving Facility to, among other things, reduce the size of the commitments from \$275.0 million to \$190.0 million, provide a \$20.0 million letter of credit subfacility and lower the testing levels of certain financial covenants. On March 13, 2020, we entered into Amendment No.4 which further amended the Revolving Facility to, among other things, reduce the size of commitments from \$190.0 million to \$150.0 million.

The Revolving Facility, denominated in US dollars, has an interest rate of LIBOR plus 2.5% (with no LIBOR floor). The Revolving Facility, denominated in CAD, has an interest rate of CDOR plus 2.5% (with no CDOR floor). The non-use fee is 1.0% annually if we use 35% or less of the Revolving Facility and 0.50% annually if we use more than 35% of the Revolving Facility. We elect the LIBOR or CDOR rates on the loans outstanding on our Revolving Facility, which has a LIBOR or CDOR period that is one, two, three or nine months. The LIBOR rate on the USD borrowings outstanding on its Revolving Facility had a one month LIBOR period as of March 31, 2020. We had no Canadian borrowings outstanding on our Revolving Facility as of March 31, 2020.

As of March 31, 2020, we had USD borrowings of \$81.7 million outstanding under the Revolving Facility with a quarter-end interest rate of 3.31%. The borrowings denominated in CAD are translated into USD based on the spot rate at each balance sheet date. The impact resulting from changes in foreign exchange rates on the Revolving Facility borrowings is included in unrealized appreciation (depreciation) on foreign currency borrowings in our Consolidated Statements of Operations. The borrowings denominated in CAD may be positively or negatively affected by movements in the rate of exchange between USD and CAD. This movement is beyond our control and cannot be predicted. There were no CAD borrowings outstanding on our Revolving Facility as of or for the three months ended March 31, 2020.

The Revolving Facility includes an accordion feature permitting us to expand the Revolving Facility, if certain conditions are satisfied; provided, however, that the aggregate amount of the Revolving Facility, collectively, is capped. The Revolving Amendment revised the cap from \$600.0 million to \$500.0 million.

The Revolving Facility generally requires payment of interest on a quarterly basis for ABR loans (commonly based on the Prime Rate or the Federal Funds Rate), and at the end of the applicable interest period for Eurocurrency loans bearing interest at LIBOR or CDOR, the interest rate benchmarks used to determine the variable rates paid on the Revolving Facility. All outstanding principal is due upon each maturity date. The Revolving Facility also require a mandatory prepayment of interest and principal upon certain customary triggering events (including, without limitation, the disposition of assets or the issuance of certain securities).

Borrowings under the Revolving Facility are subject to, among other things, a minimum borrowing/collateral base. The facilities have certain collateral requirements and/or covenants, including, but limited to, covenants related to: (a) limitations on the incurrence of additional indebtedness and liens, (b) limitations on certain investments, (c) limitations on certain restricted payments, (d) limitations on the creation or existence of agreements that prohibit liens on certain properties of ours and our subsidiaries, and (e) compliance with certain financial maintenance standards including (i) minimum stockholders' equity, (ii) a ratio of total assets (less total liabilities not represented by senior securities) to the aggregate amount of senior securities representing indebtedness, of us and our consolidated subsidiaries, of not less than 2.00:1.00, (iii) minimum liquidity, (iv) minimum net worth, and (v) a consolidated interest coverage ratio. In addition to the financial maintenance standards, described in the preceding sentence, borrowings under the facilities (and the incurrence of certain other permitted debt) are subject to compliance with a borrowing base that applies different advance rates to different types of assets in our portfolio.

We cannot be assured that we will be able to borrow funds under the Revolving Facility at any particular time or at all. We are currently in compliance with all financial covenants under the Revolving Facility.

As of March 31, 2020 and December 31, 2019, the carrying amount of the Company's outstanding Revolving Facility approximated fair value. The fair value of the Company's Revolving Facility is determined in accordance with ASC 820, which defines fair value in terms of the price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. The fair value of the Company's Revolving Facility is estimated based upon market interest rates and entities with similar credit risk. As of March 31, 2020 and December 31, 2019, the Revolving Facility would be deemed to be Level 3 of the fair value hierarchy.

Interest expense and related fees, excluding amortization of deferred financing costs, of \$0.9 million and \$1.6 million were incurred in connection with the Revolving Facility during the three months ended March 31, 2020 and 2019, respectively.

Amortization of deferred financing costs of \$0.4 million, which included one-time accelerated amortization of \$0.3 million in connection with a reduction in the revolver commitment size, and \$0.5 million, which included one-time accelerated amortization of \$0.4 million, respectively, were incurred in connection with the Revolving Facility for the three months ended March 31, 2020 and 2019. As of March 31, 2020, we had \$1.2 million of deferred financing costs related to the Revolving Facility, which is presented as an asset. As of December 31, 2019, we had \$1.6 million of deferred financing costs related to the Revolving Facility, which is presented as an asset.

Recent legislation has modified the 1940 Act by allowing a BDC to increase the maximum amount of leverage it may incur under the 1940 Act from an asset coverage ratio of 200% to an asset coverage ratio of 150%, if certain requirements are met. At our Annual Meeting of Stockholders on June 14, 2019, stockholders approved a proposal to reduce our asset coverage ratio to 150%. Such asset coverage ratio became effective on June 15, 2019. On April 14, 2020, we received lender consent to reduce our asset coverage ratio to 165%.

Notes

In December 2015 and November 2016, we completed a public offering of \$35.0 million and \$25.0 million, respectively, in aggregate principal amount of 6.75% notes due 2022, or the 2022 Notes. The 2022 Notes mature on December 30, 2022, and may be redeemed in whole or in part at any time or from time to time at our option on or after December 30, 2018. The 2022 Notes bear interest at a rate of 6.75% per year payable quarterly on March 30, June 30, September 30 and December 30, of each year, beginning March 30, 2016 and trade on the New York Stock Exchange under the trading symbol “TCRZ”.

On October 5, 2018, we completed a public offering of \$50.0 million in aggregate principal amount of 6.125% notes due 2023. The 2023 Notes mature on October 30, 2023, and may be redeemed in whole or in part at any time or from time to time at our option on or after October 30, 2021. The 2023 Notes bear interest at a rate of 6.125% per year payable quarterly on March 30, June 30, September 30 and December 30, of each year, beginning December 30, 2018 and trade on the New York Stock Exchange under the trading symbol “TCRW”. On October 16, 2018, the underwriters exercised their option to purchase an additional \$1.6 million to cover overallocments. We refer to the 2022 Notes and 2023 Notes collectively as the Notes.

The Notes are our direct unsecured obligations and rank: (i) *pari passu* with our other outstanding and future senior unsecured indebtedness; (ii) senior to any of our future indebtedness that expressly provides it is subordinated to the Notes; (iii) effectively subordinated to all our existing and future secured indebtedness (including indebtedness that is initially unsecured to which we subsequently grant security), to the extent of the value of the assets securing such indebtedness, including without limitation, borrowings under our Revolving Facility; (iv) structurally subordinated to all existing and future indebtedness and other obligations of any of our subsidiaries.

The Base Indenture, as supplemented by the First, Second and Third Supplemental Indentures (the “Indenture”), contains certain covenants including covenants requiring us to comply with (regardless of whether it is subject to) Section 18 (a)(1)(A) as modified by Section 61(a)(1) of the 1940 Act or any successor provisions, whether or not we continue to be subject to such provisions of the 1940 Act, but giving effect, in either case, to any exemptive relief granted to us by the SEC. Currently these provisions generally prohibit us from making additional borrowings, including through the issuance of additional debt or the sale of additional debt securities, unless our asset coverage, as defined in the 1940 Act, equals at least 150% after such borrowings (if certain requirements are met). These covenants are subject to important limitations and exceptions that are described in the Indenture. The Indenture provides for customary events of default and further provides that the Trustee or the holders of 25% in aggregate principal amount of the outstanding Notes in a series may declare such Notes immediately due and payable upon the occurrence of any event of default after expiration of any applicable grace period. As of March 31, 2020, we were in compliance with the terms of the Base Indenture and the First, Second and Third Supplemental Indentures governing the Notes. See Note 7 to our consolidated financial statements for more detail on the Notes.

As of March 31, 2020, the carrying amount and fair value of our Notes was \$111.6 million and \$91.9 million, respectively. As of December 31, 2019, the carrying value and fair value of our Notes was \$111.6 million and \$114.9 million, respectively. The fair value of our Notes is determined in accordance with ASC 820, which defines fair value in terms of the price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. The fair value of the Notes is based on the closing price of the security, which is a Level 2 input under ASC 820 due to the trading volume.

In connection with the issuance of the 2022 and 2023 Notes, we incurred \$4.8 million of fees and expenses. Any of these deferred financing costs are presented as a reduction to the notes payable balance and are being amortized using the effective interest method over the term of the Notes. For the three months ended March 31, 2020 and 2019, we amortized approximately \$0.2 million and \$0.2 million of deferred financing costs, respectively, which is reflected in amortization of deferred financing costs on the Consolidated Statements of Operations. As of March 31, 2020 and December 31, 2019, we had \$2.5 million and \$2.7 million, respectively, of remaining deferred financing costs on the Notes, which reduced the notes payable balance on our Consolidated Statements of Assets and Liabilities.

For the three months ended March 31, 2020 and 2019, we incurred interest expense on the Notes of approximately \$1.8 million and \$1.8 million, respectively.

Commitments and Contingencies and Off-Balance Sheet Arrangements

From time to time, we, or the Advisor, may become party to legal proceedings in the ordinary course of business, including proceedings related to the enforcement of our rights under contracts with our portfolio companies. Neither we, nor the Advisor, are currently subject to any material legal proceedings.

Unfunded commitments to provide funds to portfolio companies are not reflected in our Consolidated Statements of Assets and Liabilities. Our unfunded commitments may be significant from time to time. These commitments will be subject to the same underwriting and ongoing portfolio maintenance as are the on-balance sheet financial instruments that we hold. Since these commitments may expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. We intend to use cash flow from normal and early principal repayments and proceeds from borrowings and offerings to fund these commitments.

As of March 31, 2020 and December 31, 2019, we have the following unfunded commitments to portfolio companies (in millions):

(1) We have sole discretion as to whether to lend under this revolving commitment.

(2) Includes amounts set aside for issued standby letters of credit.

The changes in fair value of our unfunded commitments are considered to be immaterial as the yield determined at the time of underwriting is expected to be materially consistent with the yield upon funding. We will fund our unfunded commitments from the same sources we use to fund our investment commitments that are funded at the time they are made (which are typically existing cash and cash equivalents and borrowings under our Revolving Facility). We manage our liquidity to ensure that we have available capital to fund our unfunded commitments as necessary.

Distributions

We have elected to be taxed as a RIC under Subchapter M of the Code. In order to maintain our status as a RIC, we are required to distribute, for each taxable year, at least 90% of our investment company taxable income. To avoid a 4% excise tax on undistributed earnings, we are required to distribute each calendar year the sum of (i) 98% of our ordinary income for such calendar year, (ii) 98.2% of our capital gain net income for the one-year period ending October 31 of that calendar year and (iii) any income recognized, but not distributed, in preceding years and on which we paid no federal income tax.

Our quarterly distributions, if any, will be determined by our board of directors. We intend to make distributions to stockholders on a quarterly basis of substantially all of our net investment income. Although we intend to make distributions of net realized capital gains, if any, at least annually, out of assets legally available for such distributions, we may in the future decide to retain such capital gains for investment. In addition, the extent and timing of special dividends, if any, will be determined by our board of directors and will largely be driven by portfolio specific events and tax considerations at the time.

In addition, we may be limited in our ability to make distributions due to the BDC asset coverage test for borrowings applicable to us as a BDC under the 1940 Act.

The following table summarizes our recent distributions declared and paid or to be paid on all shares including distributions reinvested, if any:

March 3, 2020	March 20, 2020	March 31, 2020	\$	0.21

We may not be able to achieve operating results that will allow us to make distributions at a specific level or to increase the amount of these distributions from time to time. If we do not distribute a certain percentage of our income annually, we will suffer adverse tax consequences, including possible loss of our status as a regulated investment company. We cannot assure stockholders that they will receive any distributions at a particular level.

We maintain an “opt in” dividend reinvestment plan for our common stockholders. As a result, unless stockholders specifically elect to have their dividends automatically reinvested in additional shares of common stock, stockholders will receive all such dividends in cash. There were no dividends reinvested for the three months ended March 31, 2020 and 2019, respectively.

Under the terms of our dividend reinvestment plan, dividends will primarily be paid in newly issued shares of common stock. However, we reserve the right to purchase shares in the open market in connection with the implementation of the plan. This feature of the plan means that, under certain circumstances, we may issue shares of our common stock at a price below net asset value per share, which could cause our stockholders to experience dilution.

Distributions in excess of our current and accumulated earnings and profits would generally be treated as a return of capital to the extent of the stockholder’s adjusted tax basis in our shares. If a stockholder’s tax basis is reduced to zero, the stockholder would generally treat any remaining distributions in excess of our current and accumulated earnings and profits as a capital gain. The determination of the tax attributes of our distributions will be made annually as of the end of our fiscal year based upon our taxable income for the full year and distributions paid for the full year. Therefore, a determination made on a quarterly basis may not be representative of the actual tax attributes of our distributions for a full year. Each year, a statement on Form 1099-DIV identifying the source of the distributions will be sent to our U.S. stockholders of record (other than certain exempt recipients). Our board of directors presently intends to declare and pay quarterly distributions. Our ability to pay distributions could be affected by future business performance, liquidity, capital needs, alternative investment opportunities and loan covenants.

We may generate qualified interest income and short-term capital gains that may be exempt from United States withholding tax when distributed to foreign accounts. A RIC is permitted to designate distributions in the form of dividends that represent interest income from U.S. sources (commonly referred to as qualified interest income) and short-term capital gains as exempt from U.S. withholding tax when paid to non-U.S. stockholders with proper documentation. As of March 31, 2020, the percentage of 2020 income estimated as qualified interest income for tax purposes was 78.3%.

Stock Repurchase Program

On March 2, 2018 our board of directors authorized a \$20.0 million stock repurchase program, which was amended and extended on March 5, 2019 to authorize the repurchase of outstanding shares in an aggregate amount of up to \$15.0 million. Effective March 14, 2019, we adopted a stock trading plan in accordance with Rule 10b5-1 of the Exchange Act. This plan was completed in November of 2019. On December 16, 2019, our board of directors authorized a new \$10.0 million stock repurchase program, which, unless extended by our board of directors, will expire on December 16, 2020 and may be modified or terminated at any time for any reason without prior notice. Effective December 17, 2019, we adopted a stock trading plan in accordance with Rule 10b5-1 of the Exchange Act, which was terminated on March 10, 2020. We provided our stockholders with notice of our ability to repurchase shares of our common stock in accordance with 1940 Act requirements. We retired all shares of common stock purchased in connection with the stock repurchase program prior to termination and plan to retire all shares of common stock that we purchase in the future in connection with the program.

The following table summarizes our share repurchases under our stock repurchase program for the three months ended March 31, 2020 and 2019 (in millions):

	For the three months ended			
	March 31,			
	2020		2019	
Dollar amount repurchased (1)	\$	2.2	\$	1.3
Shares repurchased		0.3		0.2
Average price per share (including commission)	\$	6.33	\$	6.67
Weighted average discount to net asset value		16.99%		27.36%

(1) Effective March 14, 2019, we adopted a stock trading plan in accordance with Rule 10b5-1 of the Exchange Act. Under this plan ("10b5-1 Plan"), during the quarter ended March 31, 2019, we purchased 0.1 million shares at an average cost of \$6.63, inclusive of commissions. All of the shares repurchased during the quarter ended March 31, 2020 were under the 10b5-1 Plan adopted on December 17, 2019.

Critical Accounting Policies

For a description of the Company's critical accounting policies, refer to "Part II—Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies" in the Company's 2019 Annual Report on Form 10-K. The Company considers its most significant accounting policies to be those related to its Valuation of Portfolio Investments, Revenue Recognition, Net Realized Gains or Losses and Net Change in Unrealized Appreciation or Depreciation and U.S. Federal Income Taxes, including excise tax. There have been no material changes to the Company's critical accounting policies as described in the Company's 2019 Annual report on Form 10-K.

Recent Developments

From April 1, 2020 through May 7, 2020, we made revolver and delayed draw fundings totaling \$3.1 million with a combined weighted average yield of 6.7%.

On April 14, 2020, we entered into Amendment No. 5 to the Revolving Facility which, among other things, (i) permanently reduced the asset coverage test from a minimum of 200% to a minimum of 165%; (ii) permanently reduced the shareholder's equity and obligor's net worth test from a minimum of \$175.0 million each to a minimum of \$140.0 million each; (iii) permanently reduced the size of the lender's commitments under the Revolving Facility from \$150.0 million to \$120.0 million; and (iv) permanently increased the interest rate by 25 basis points with a mechanism for an additional 25 basis points increase dependent on certain testing levels.

On March 3, 2020, we entered into a commitment letter (the "Commitment Letter") with First Eagle and the prior owners of the Advisor, including certain members of management of the Advisor (collectively, the "Investors"). Pursuant to the Commitment Letter, First Eagle and the Investors agreed to purchase from us, in aggregate, approximately \$30.0 million of our common stock in a publicly registered issuance on or before April 21, 2020 at the Company's net asset value ("NAV") per share, as approved in accordance with the Investment Company Act of 1940, as amended. On April 16, 2020, our board of directors approved a NAV per

share for April 15, 2020 of \$5.34. On April 17, 2020, we sold 5,617,978 shares at \$5.34 per share. After offering expenses, we received net proceeds of \$30.0 million from the share issuance on April 21, 2020.

On May 4, 2020, we received proceeds of \$2.1 million from the partial repayment of our first lien senior secured term loan in Holland Intermediate Acquisition Corp.

On May 5, 2020, our board of directors declared a dividend of \$0.10 per share payable on June 30, 2020 to stockholders of record at the close of business on June 15, 2020.

A special stockholder meeting has been called for May 28, 2020 to allow stockholders to vote on the New Investment Management Agreement.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are subject to financial market risks, including changes in interest rates. As of March 31, 2020, 100.0% of the debt investments in our portfolio are floating rate loans, based upon fair market value. In the future, we expect other debt investments in our portfolio will have floating rates. These floating rate loans typically bear interest in reference to LIBOR, which are indexed to 30-day, 60-day, 90-day or 180-day LIBOR rates subject to an interest rate floor. As of March 31, 2020 and December 31, 2019, the weighted average interest rate floor on our floating rate loans was 0.93% and 0.88%, respectively. Our Revolving Facility is also subject to floating interest rates.

Based on our March 31, 2020, Consolidated Statement of Assets and Liabilities, the following table shows the annual impact on net income of changes in interest rates, which assumes no changes in our investments and borrowings (in millions):

Change in Basis Points	Interest Income	Interest Expense	Net Income (1)
Up 300 basis points	\$ 8.4	\$ 2.4	\$ 6.0
Up 200 basis points	\$ 5.6	\$ 1.6	\$ 4.0
Up 100 basis points	\$ 2.8	\$ 0.8	\$ 2.0
Down 300 basis points	\$ (0.9)	\$ (0.7)	\$ (0.2)
Down 200 basis points	\$ (0.9)	\$ (0.7)	\$ (0.2)
Down 100 basis points	\$ (0.9)	\$ (0.7)	\$ (0.2)

(1) Excludes the impact of incentive fees based on pre-incentive fee net investment income. See Note 4 - Related Party Transaction to our consolidated financial statements for the years ended March 31, 2019 and 2018 for more information on the incentive fee.

Although we believe that this measure is indicative of our sensitivity to interest rate changes, it does not adjust for potential changes in credit quality, size and composition of the assets on the balance sheet and other business developments, including borrowings under our Revolving Facility, that could affect net increase in net assets resulting from operations, or net income.

In the future, we may use other standard hedging instruments such as futures, options and forward contracts subject to the requirements of the 1940 Act. While hedging activities may insulate us against adverse changes in interest rates, they may also limit our ability to participate in the benefits of lower interest rates with respect to our portfolio of investments.

From time to time, we may make investments that are denominated in a foreign currency. These investments are translated into U.S. dollars at each balance sheet date, exposing us to movements in foreign exchange rates. We have the ability to borrow in certain foreign currencies under our Revolving Credit Facility. Instead of entering into a foreign exchange forward contract in connection with loans or other investments we have made that are denominated in a foreign currency, we may borrow in that currency to establish a natural hedge against our loan or investment.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Our management with the participation of our President and Chief Financial Officer, conducted an evaluation of the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act, as of the end of the period covered by this quarterly report on Form 10-Q. Based on this evaluation, our President and Chief Financial Officer have concluded that, as of the period covered by this quarterly report on form 10-Q, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Acts recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that information required to be disclosed by us in the

reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our President and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act, that occurred during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal proceedings

We are not a defendant in any material pending legal proceeding, and no such material proceedings are known to be contemplated. However, from time to time, we may be party to certain legal proceedings incidental to the normal course of our business including the enforcement of our rights under the contracts with our portfolio companies.

Item 1A. Risk Factors

Other than as provided below, there have been no changes to the risk factors described in Part I, Item 1A “Risk Factors” of the Company’s Annual Report on Form 10-K for the year ended December 31, 2019 filed with the Securities and Exchange Commission on March 5, 2020.

Major public health issues, and specifically the novel coronavirus COVID-19, could have an adverse impact on our financial condition and results of operations and other aspects of our business.

We are closely monitoring developments related to the COVID-19 pandemic to assess its impact on our business; while, due to the evolving and highly uncertain nature of this event, it currently is not possible to estimate its impact precisely, the COVID-19 pandemic could impact our business, financial condition, results of operations, liquidity or prospects in a number of ways. For instance, our investment portfolio (and, specifically, the valuations of investment assets we hold) has been, and may continue to be, adversely affected as a result of market developments from the COVID-19 pandemic and uncertainty regarding its outcome. Our net asset value per share has significantly decreased as a result of the outbreak. As of March 31, 2020, our board approved our NAV per share of \$5.22, a decrease from the \$7.64 NAV per share as of December 31, 2019. Moreover, changes in interest rates, reduced liquidity or a continued slowdown in U.S. or global economic conditions may also adversely affect our business, financial condition, results of operations, liquidity or prospects. Further, extreme market volatility may leave us unable to react to market events in a prudent manner consistent with our historical practices in dealing with more orderly markets. Although it is impossible to predict with certainty the potential full magnitude of the business and economic ramifications, COVID-19 has impacted, and may further impact, our business in various ways, including but not limited to:

- From an operational perspective, our Advisor’s employees, as well as the workforces of our vendors, service providers and counterparties, may also be adversely affected by the COVID-19 pandemic or efforts to mitigate the pandemic, including government-mandated shutdowns, requests or orders for employees to work remotely, and other social distancing measures, in the U.S., which could result in an adverse impact on our ability to conduct our business;
- While the market dislocation caused by COVID-19 may present attractive investment opportunities, due to increased volatility in the financial markets, we may not be able to complete those investments;
- If the impact of COVID-19 continues, we may have more limited opportunities to successfully exit existing investments, due to, among other reasons, lower valuations, decreased revenues and earnings, or lack of potential buyers with financial resources to pursue an acquisition, resulting in a reduced ability to realize value from such investments;
- Our portfolio companies are facing or may face in the future increased credit and liquidity risk due to volatility in financial markets, reduced revenue streams, and limited or higher cost of access to preferred sources of funding, which may result in potential impairment of our investments. Changes in the debt financing markets are impacting, or, if the volatility in financial market continues, may in the future impact, the ability of our portfolio companies to meet their respective financial obligations;
- Borrowers of loans, notes and other credit instruments in our portfolio may be unable to meet their principal or interest payment obligations or satisfy financial covenants, resulting in a decrease in value of our investments and lower than expected return. In addition, for variable interest instruments, lower reference rates resulting from government stimulus programs in response to COVID-19 could lead to lower interest income;
- Many of our portfolio companies operate in industries that are materially impacted by COVID-19, including but not limited to healthcare, travel, entertainment and hospitality. Many of these companies are facing operational and financial hardships resulting from the spread of COVID-19 and related governmental measures, such as the closure of stores, restrictions on travel, quarantines or stay-at-home orders. If the disruptions caused by COVID-19 continue and the restrictions put in place are not lifted, the businesses of these portfolio companies could suffer materially or become insolvent, which would decrease the value of our investments;

- An extended period of remote working by our Advisor’s employees could strain its technology resources and introduce operational risks, including heightened cybersecurity risk. Remote working environments may be less secure and more susceptible to hacking attacks, including phishing and social engineering attempts that seek to exploit the COVID-19 pandemic; and
- COVID-19 presents a significant threat to our Advisor’s employees’ well-being and morale. While our Advisor has implemented a business continuity plan to protect the health of its employees and has contingency plans in place for key employees or executive officers who may become sick or otherwise unable to perform their duties for an extended period of time, such plans cannot anticipate all scenarios, and our Advisor may experience potential loss of productivity or a delay in the roll out of certain strategic plans.

In addition to the foregoing, the pandemic is exacerbating many of the other risks described in our Annual Report on Form 10-K for the year ended December 31, 2019.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Stock Repurchase Program

On March 2, 2018 our board of directors authorized a \$20.0 million stock repurchase program, which was amended and extended on March 5, 2019 to authorize the repurchase of outstanding shares in an aggregate amount of up to \$15.0 million. Effective March 14, 2019, we adopted a stock trading plan in accordance with Rule 10b5-1 of the Exchange Act. This plan was completed in November of 2019. On December 16, 2019, our board of directors authorized a new \$10.0 million stock repurchase program, which, unless extended by our board of directors, will expire on December 16, 2020 and may be modified or terminated at any time for any reason without prior notice. Effective December 17, 2019, we adopted a stock trading plan in accordance with Rule 10b5-1 of the Exchange Act, which was terminated on March 10, 2020. We provided our stockholders with notice of our ability to repurchase shares of our common stock in accordance with 1940 Act requirements. We retired all shares of common stock purchased in connection with the stock repurchase program prior to termination and plan to retire all shares of common stock that we purchase in the future in connection with the program.

The following table presents information with respect to the Company’s purchases of its common stock during the three months ended March 31, 2020. All shares repurchased during the three months ended March 31, 2020 were under the 10b5-1 Plan effective December 15, 2019.
